

# PLAN GENERAL STRIKE TO AID RAIL MEN

## Laws Set In Motion To Smash Red Plot For National Revolt

**Trial Awaits Seventeen—William Z. Foster Arrested in Chicago**  
**HUNT ROSE PASTOR STOKES**  
**Federal Men Search for Fifty More Delegates At Secret Meeting in Michigan**

Chicago—Michigan state syndicalism law was the first weapon state and federal authorities planned to use Thursday in breaking up what they termed one of the greatest radical and revolutionary conspiracies of recent years.

As 17 men, captured in a raid on their secret rendezvous in the woods of Berrien County, Mich., faced syndicalist charges at St. Joseph Thursday, William Z. Foster, head of the Trade Union Educational League, leader of the steel strike of 1919 and one of the foremost radicals of America, who was arrested here, awaited extradition to Michigan.

Meanwhile state and federal agents continued their search for 50 others said to have escaped when the secret meeting in the bill was broken up. Among those for whom the authorities were looking was Rose Pastor Stokes, of New York, wealthy Communist leader.

**POLICY IDENTIFY RED**  
Seattle, Wash.—Max Learner, one of the 17 men captured in a raid on a meeting of alleged radicals at Bridgman, Mich., has been identified by the Seattle police as having been connected with certain radical movements in the state of Washington.

**LABOR PARTY ORGANIZER**  
Portland, Ore.—Z. G. Ordling, taken into custody in a raid on a meeting of alleged radicals at Bridgman, Mich., was one of the organizers in Oregon of the Communist Labor party during the war and was arrested a number of times by federal officers. He was a member of the local of the boiler makers' union which was disbanded by the central labor council of Oregon and denied membership for a time because of its alleged radical tendencies.

**YOUNG HUSBAND ADMITS STRIKING WIFE WHO DIED**

Morris, Ill.—Thomas Cushing, 24 years old, made a partial confession of how he attacked and killed his 19 year old bride of four months and also caused the death of her unborn baby, according to Sheriff James Mack.

Mrs. Cushing died in a hospital less than three hours after she had been carried from her burning home last Saturday. According to State At.orney Frank L. Flood, Cushing said that he had struck his wife with a chair while under the influence of wine because she reproached him for drinking.

Cushing, it was said, did not explain how the house was fired or the statement of the man who carried the dying woman from the home, who said that in answer to his questions, she told him "Tom did it and threw gasoline on my clothes."

The coroner's jury held that the woman came to her death from wounds inflicted by an unknown weapon in the hands of Thomas Cushing. She also was terribly burned.

**If I wanted my own business--**

I would advertise in The Post-Crescent for the business I could best handle, be it a print shop, a grocery store, or what not.

Then, if I needed more capital, I would advertise for a partner.

In this way I would put myself in line for more money than I could ever make working for someone else.

Post-Crescent Want Ads are quick in action—I would have my business almost immediately. A Want Ad before 40,000 people would soon find the men I wanted to do business with. I would get launched on my career today. I'd telephone my Want Ad to The Post-Crescent right away.

## BRITISH WILL NOT HELP U. S. GATHER DEBTS

**English Kingdom Was Not Asked To Give Guarantee For Other Nations**

Washington—Funding of the \$4, 135,000,000 war debt owed by Great Britain to the United States was declared Thursday by Secretary Mellon to have no relation to the war loans made by the United States and Great Britain to other governments or to questions arising in connection with reparations payment of the former central powers.

The treasury secretary made his declaration with respect to the British debt in a formal statement, he said, on account of numerous inquiries reaching the treasury as to the exact status of the obligations of the various European governments held by the United States.

**MAKES CLEAR STATUS**  
Reports have been published and statements made in some quarters, Mr. Mellon said, that the British liability was not incurred for the British government but for the other allies and that the United States in making the original arrangements had insisted in substance that though the other allies were to use the money borrowed it was only on British security that the United States was prepared to lend it.

"In answer to these inquiries," Mr. Mellon said, "it should be said that the obligations of foreign governments in question had their origin almost entirely in purchases made in the United States and the advances by the United States government were for the purpose of covering payments for these purchases by the allies."

**NO GUARANTEE ASKED**  
The statement that the United States government virtually insisted upon a guarantee by the British government of amounts advanced to the Allies is evidently based upon a misapprehension. Instead of insisting upon a guarantee, or any technicality of that nature the United States government took the position that it would make advances to each government to cover the purchases made by that government and would not require any government to give obligations for advances made to cover the purchases of any other government. Thus, the advances to the British government evidenced by its obligations, were made to cover its own purchases."

**YOUNG HUSBAND ADMITS STRIKING WIFE WHO DIED**

Morris, Ill.—Thomas Cushing, 24 years old, made a partial confession of how he attacked and killed his 19 year old bride of four months and also caused the death of her unborn baby, according to Sheriff James Mack.

Mrs. Cushing died in a hospital less than three hours after she had been carried from her burning home last Saturday. According to State At.orney Frank L. Flood, Cushing said that he had struck his wife with a chair while under the influence of wine because she reproached him for drinking.

Cushing, it was said, did not explain how the house was fired or the statement of the man who carried the dying woman from the home, who said that in answer to his questions, she told him "Tom did it and threw gasoline on my clothes."

The coroner's jury held that the woman came to her death from wounds inflicted by an unknown weapon in the hands of Thomas Cushing. She also was terribly burned.

## DEADLOCK IS UNBROKEN IN COAL PARLEY

**No Sign of Move That Will End Tieup at Philadelphia Since Tuesday**

**U. S. OFFICIAL IS ACTIVE**  
**Michigan and Federal Authorities Near Break Over Priority Order**

Philadelphia, Pa.—While both sides were said to be in a receptive mood Thursday, there was no sign of a move either from the operators or miners toward suggesting a solution of the deadlock over the situation in the hard coal fields which resulted in breaking up the peace parleys here Tuesday.

John L. Lewis, president of the United Mine Workers, said he did not know when he would leave the city. He might stay two days longer "to clean up affairs," he said.

Samuel D. Warriner, president of Lehigh Coal and Navigation company, who led the operators' representatives in the recent negotiations held a consultation Wednesday with W. J. Richards, president of the Philadelphia and Reading Coal and Iron company, and both were reported to have been in communication with William A. Glasgow Jr. the attorney appointed by Secretary of Commerce Hoover to bring the opposing sides in the anthracite controversy together.

**OFFICIALS NEAR BREAK**  
Lansing, Mich.—Indication of a break between the state and federal fuel administrations unless prompt steps were taken to relieve the acute coal shortage in Michigan were apparent Thursday.

Governor Alexander J. Groesbeck already had fired the opening gun of the looming controversy. Following the return of William W. Potter state

**CONSIDER AMENDMENTS TO SOLDIER BONUS BILL**

Washington—Committee changes in the house soldiers' bonus bill having been approved the senate turned Thursday to consideration of individual amendments. Disposition of these was not expected to consume a great deal of time and passage of the measure this week was regarded by some leaders as a possibility.

Pending amendments included that by Senator Bursum, Republican, New Mexico, proposing half cash and half certificates of indebtedness for the veterans. This proposal was rejected Wednesday without debate or a roll call, but the vote was reconsidered so that Senator Bursum might discuss the amendment Thursday.

Aside from this proposition Senator Smoot, of Utah, ranking Republican on the finance committee, has in mind a paid up insurance plan and also a sales tax amendment. Senator McNary, Republican, Oregon, plans to present the land reclamation bill as a substitute for the land settlement action approved by the committee.

**\$58,000 In Checks, Cashed In Appleton, Lost In Mails**

Approximately \$58,000 in checks was lost in the mails on Aug. 8 and as a result the First National bank was short that amount. The checks had been indorsed by local depositors and cashed by the bank and forwarded to the Milwaukee correspondent for collection.

The bank has notified the depositors to secure duplicate checks from the persons or firms that issued them in order to make up the shortage. Between 150 to 200 checks were in the mail. It is understood that no depositor can be credited with the amount cashed until payment has been made by the signers.

New checks are to be issued and marked "duplicate" so that in the event the original ones are recovered, the others will be identified.

The loss of the mail matter is held unaccountable by Postmaster William H. Zuehlke. He has been told that the piece of mail containing the checks was posted in the local post office. As the matter was not registered, he says, he is not in a position to state where the responsibility is to be placed. The loss of the checks is not the equivalent of a loss in currency, but it will mean considerable work for the bank and the depositors to have the matter rectified, Mr. Zuehlke said.

**\$150,000 TO SEE BROADWAY**

**"DIAMOND MARTY" KLINE**

BY BOB DORMAN  
New York—What does it cost to see Broadway? A thousand dollars a night, says Broadway's most spectacular spender.

He is "Diamond Marty" Kline, other wise John Martin Kline, theatrical "angel" and real estate broker.

"I ought to know," he says, "for I have spent \$150,000 along Broadway in the past five months. I have been the kind of a fellow they love along the Great White Way—a spender."

"Diamond Marty" wears a 35-karat diamond ring, a stickpin that looks like a headlight, and so many other gems that he is acclaimed as the successor to the late "Diamond Jim" Brady. Kline sprang into the line light recently in a legal battle over a champagne bill in one of New York's guided palaces.

"Broadway is still alive—if you know the ropes," says Kline. "A spender has an exciting time. I like to watch the way they go after my money, the different schemes and tricks they use. Why, I've bought quarts of champagne and had them

stolen right under my nose and taken back to the kitchen and sold to me over again."

**PARASITES FLOURISH**  
"Parasites men and women, flourish in Broadway's night life. Many a man in fashionable rig hasn't the price of his next morning's breakfast."

"And many a girl, dressed in the latest mode from Paris, is wondering where the landlady's rent is coming from."

"But don't think that I have any illusions as to the stability of Broadway friendships. When your money is gone you'll soon be forgotten. The ones that today eagerly seek you out, will pass you on the streets unknowingly."

"But as a study in human nature, there is no greater field than Broadway. And I get my money's worth in its study. It's the one amusement that I find in life."

Kline at one time was a boxer and considered a promising contender for the bantamweight title, but he deserted the ring when he inherited a fortune of half a million dollars.

## HIGHWAY 15 OPEN AUG. 26 TO TRAVEL

**Complete Last Line on Wisconsin's \$5,000,000 Traffic System**

Milwaukee—This week's review of Wisconsin highways by the tour department of the Milwaukee Journal says.

"The much talked of Wisconsin highway 15 and the last line on Wisconsin's \$5,000,000 highway will be opened for traffic for the first time Saturday, August 26. The concrete is all laid between Milwaukee and Fond du Lac, and the road will be cleared with the exception of one small bridge where an adequate detour is provided."

"Work on various other projects are somewhat doubtful owing to the shortage of concrete and it is doubtful whether some of the minor projects will be completed this year."

"Highway 55 will be opened to West Bend Saturday which will leave only a three block detour in West Bend proper. The rest of the road will be open practically to Kewaskum."

## SENATE TO GET BORAH AND WINSLOW MEASURES

Washington—With the Winslow bill proposing a fast finding investigation of the coal industry by a commission without representation of operators and miners passed by the house, Chairman Borah of the senate labor committee was prepared to call up Thursday his pending senate bill which although differing in some respects from the house measure also has been approved in the main by President Harding. Senator Borah said he believed the senate would pass his bill and it would then be sent to conference for adjustment with the measure passed by the house.

**RICH GIRL HELD**  
Milwaukee, Wis.—Bertha, daughter of Mrs. Doris Rosenberg, wealthy Evanston, Ill., property owner, was recommended held by the district attorney for further action following the inquest Thursday into the death of Mrs. Frances James, Greenfield road.

## SUCCESSOR TO COLLINS NEXT STEP OF IRISH

**Cosgrave, Mulcahy, O'Higgins, O'Connell and O'Sullivan Are Mentioned**

**GENERAL'S BODY IN DUBLIN**  
**Southern Parliament Also Will Name Successor to Arthur Griffith**

Dublin—Dublin began to recover somewhat Thursday from the shock caused by the dramatic death of Michael Collins, and plans were forward for the meeting of the new southern parliament on Saturday, when the ministerial changes necessitated by the sudden removal of Collins and Arthur Griffith are expected to be made.

Meanwhile, William T. Cosgrave is acting as the head of the provisional Free State government and Richard Mulcahy, as chief of staff, is directing the final phase of the national army's campaign against the Irregulars.

**WHO WILL SUCCEED**

The absorbing question of who is going to succeed Collins is voiced on all sides and, besides Cosgrave and Mulcahy, the names of Kevin O'Higgins, minister of economic affairs, General O'Connell, assistant chief of staff, and General Gerald O'Sullivan frequently are mentioned.

General Collins' body reached Dublin by steamer Thursday morning from Cork, and was met by an enormous number of mourners, among whom were representatives of the army, including Chief of Staff Mulcahy.

**BODY TO LIE IN STATE**

The coffin covered with the Irish tricolor, was placed upon a gun carriage and, preceded by a band of pipers was taken to St. Vincent's hospital. The body will remain in the mortuary of the hospital until Friday when it will be removed to the city hall to lie in state until Sunday afternoon.

A solemn requiem high mass will be celebrated at 11 o'clock Monday in the pro-cathedral, directly after which the body will be conveyed to the famous Glasnevin cemetery where Collins buried his colleague, Griffith, only a little more than a week ago.

**AMERICAN PLAYS ROLE**

London—At the time of his death, Michael Collins had under consideration plans to re-draft several sections of the constitution of the Irish Free State so as to placate the more radical Republican element. This was made known by Michael Francis Doyle, Philadelphia lawyer, who arrived from Dublin, where he went to consult with the members of the provisional government.

Mr. Doyle was the last American, he believes, to see the Free State commander in chief alive. He had several conferences with Collins and on the day before the latter went to the south where he was fated to fall under a bullet, they went carefully over the different points of the constitution which it had been planned to re-draft.

## ASKS VOLSTEAD TO QUIT COMMITTEE

Washington—Resignation of Representative Volstead, Republican Minnesota, as chairman and as a member of the house judiciary committee, because of help alleged to have been given him in the last election by the Anti-Saloon league, was requested in a resolution in the house Thursday by Representative Tinkham, Republican, Massachusetts.

Immediately after reading of the resignation had been concluded Representative Mann, Republican, Illinois, moved that it be laid on the table and the motion was adopted with a loud chorus of "Ayes."

The resolution had been laid on the table, which moved amounted to killing it, there was a demand, led by Representative Dyer, Republican, Missouri, to strike it from the record and this was ordered 141 to 3.

New York—Another sharp collapse in German marks was noted Thursday. Marks, which have been steadily declining for the last two months, were quoted at 5 1/2 cents a 100, or approximately 20 for a cent, as compared with 6 1/2 cents a 100 Wednesday night and 10 cents a week ago. The normal, or pre-war price of the mark, was 23 cents each. The French franc also sank to 2 7/8 cents each, as compared with 1 5/8 cents Wednesday. In London the mark was quoted at 3,500 to the pound sterling.

## GERMAN MARKS DECLINE; NOW WORTH 20 PER PENNY

New York—Another sharp collapse in German marks was noted Thursday. Marks, which have been steadily declining for the last two months, were quoted at 5 1/2 cents a 100, or approximately 20 for a cent, as compared with 6 1/2 cents a 100 Wednesday night and 10 cents a week ago. The normal, or pre-war price of the mark, was 23 cents each. The French franc also sank to 2 7/8 cents each, as compared with 1 5/8 cents Wednesday. In London the mark was quoted at 3,500 to the pound sterling.

**FORD LAYS OFF 3,000 MEN; COAL ALL GONE**  
Detroit, Mich.—Three thousand employees of the Ford tractor plant have been temporarily laid off because of coal. It was announced. The duration of their unemployment it was said, will depend upon coal receipts during the next few days. The tractor plant normally employs 24,000 men.

## Collins Shot On Day He Set For Wedding

By Associated Press  
London—The marriage of Michael Collins, chief of the Irish Free State, to Miss Kitty Kiernan, had been fixed originally for last Tuesday, the day Collins was killed. A Dublin despatch to the Evening News says, it was learned Thursday. The wedding date had been postponed, however, until later this month, on account of the death of Arthur Griffith, president of the Dail Eireann cabinet. Miss Kiernan, daughter of a prominent business man of County Longford, already had bought her trousseau.

## IRISH CHAOS MAY TEND TO EFFECT U. S.

**Entire European Policy Hinges On What Will Follow Murder of Collins**

By DAVID LAWRENCE  
Copyright 1922 by Post Publishing Co.  
Washington—Wednesday was a day of blues in the national capital.

The collapse of the peace negotiations between anthracite miners and operators was totally unexpected.

Rumors from New York indicated that the powerful minority in the rail executives would put to naught what had been accomplished thus far toward a settlement of the shopmen's strike.

And on top of it all came the news of the assassination of Michael Collins as a climax of terror in Europe, which has diminished such optimism as figures as Rathbone, in Germany, and Field Marshal Wilson in Great Britain.

**EFFECT ON AMERICA**

For weeks while the turmoil of European politics has been steadily getting worse President Harding has been absorbed in domestic troubles and it took a shocking piece of news like the murder of Collins coming as it did so soon after the death of Arthur Griffith to make official Washington realize that the war in Ireland might make a serious dent in Great Britain's attitude toward continental problems and have the effect of further settlement of Europe's economic status which means so much to the establishment of American trade.

Chaos in Ireland might tend to draw the attention of Britain from continental Europe and give France more latitude in dealing with Germany alone. All sorts of conjectures.

## ILLINOIS COAL JUMPS \$1.25 TON; WORKERS PROTEST

**"Legalized Robbery," District Official Terms Raise in Price of Fuel**

Springfield, Ill.—Coal mine operators in central Illinois Thursday announced they had increased the price of coal \$1.25 a ton. The raise was followed by a protest from sub-district officials of the United Mine Workers, who termed the increase "legalized robbery" and declared it called for a statement from the mine workers.

"Miners have returned to work under the same wages and conditions," Secretary John Watt of the sub-district said. "There has been small loss to either miners or operators. Because of the great quantity of coal stored and the fact that mines would have lain idle whether there had been a strike. The operators cannot with good grace lay their increase in prices to the losses they bear, it is plain profiteering."

Mines about Springfield advised retail dealers that the price of coal had been raised from \$3.75 to \$5.00 a ton. Retailers announced they had only passed the increase on raising the prices of coal delivered from \$4.75 a ton to \$6.

## GEN. J. G. HARBORD TO SUCCEED PERSHING

Washington, D. C.—The senate Wednesday cleared the way for the president to appoint Major General J. G. Harbord, deputy chief of staff, to the post of chief of staff upon retirement of General Pershing who will go into inactive duty because of age limitations in another year.

**LAD KILLED BY AUTO**  
Wausau—Theodore Schmitz, 10 of Mosinee, was struck by an automobile driven by Edward Stahowicz, of Junction City, Wednesday evening and instantly killed.

## URGE A. F. L. LEADERS TO ACT, REPORT

**Sioux City Trades' Secretary Gives Out Information on Resolutions**

**ACUTE TROUBLES CONTINUE**  
**Settlement With Individual Roads Possible Solution at New York Meeting**

By Associated Press  
Chicago—With the New York peace conference still holding the center of the railroad strike stage, situations at many railway centers remained acute and disorders continued as the shopmen's strike approached the end of its eighth week.

The rail strike entered its fifty-fifth day with reports from Sioux City, Ia., that plans have been maturing for weeks for a general nationwide strike of organized labor. John Shank, secretary of the trades and labor assembly of Sioux City, was authority for the statement that a move for a general labor war was on foot.

Union organizations throughout the country have made demands of the executive council of the American Federation of Labor to call a strike, Shank said. The Sioux City assembly passed the resolution following the lead of central labor organizations in Omaha, Denver, Detroit, San Francisco and other industrial centers, according to the Sioux City secretary.

No day, since the rail strike began has been without its violence. At Waco, Texas, R. T. Campbell, chairman of the striking shopmen, and two other men were arrested by state rangers, charged with violation of the Texas open port law in connection with the flagging of a railroad employee. Two arrests in the case had previously been made.

A railroad guard at Roseburg, Ore., broke up a fight between strikers and strikers by firing a shot over the heads of the combatants.

New York—The "big five" brotherhood chiefs and representatives of a score of railroads Thursday prepared to thresh out the possibility of individual lines settling with their striking shopmen.

This possibility was raised by leaders of the running trades, appearing as mediators at a conference Wednesday with the entire membership of the Association of Railway Executives, which rejected the proposal of the brotherhood men that the rail heads yield on the disputed question of seniority rights.

The "big five" leaders conferred until after midnight with the heads of a score of more executives, when the conference adjourned, expressed a willingness to continue negotiations, although reaffirming their common stand against the unions' seniority proposals.

Daniel Willard, spokesman for the executives announced they would meet the brotherhood chiefs again Thursday but without disclosing where or when the session would take place. It was reported unofficially, however, that the Yale club scene of Wednesday's major developments again would be the seat of negotiations.

## PLANE THAT DON'T NEED PILOT GOES TO U. S. NAVY

By Associated Press  
Washington—A new type of seaplane which is almost capable of flying without a pilot has been delivered to the navy department. The plane, designed for the training of student aviators at a conference Wednesday never before equalled in aircraft, navy officers said. It was delivered at the naval air station at Anacostia after a successful 700 mile flight from the factory at Ogdensburg, N. Y.

"In testing the plane for stability, the pilot released the controls, taking his hands and feet off of them," said Commander T. G. Ellyson, of the bureau of aeronautics who brought the craft to Washington.

The throttle was cut to low speed and the plane went into a long glide. He then speeded up the engine and still without the controls being touched the plane leveled off and continued in normal flight, making about 60 knots.

## HUMAN FLY, LOSES GRIP; BREAKS BONES

By Associated Press  
La Crosse, Wis.—Earl Westman, Stillwater, called the "human fly," fell a story and a half while descending the front of the Stoddard hotel here and broke both arms and bones in both feet. Westman had climbed the five-story building and was coming down when he slipped and fell.

## ENAMEL PIONEER DIES

By Associated Press  
Milwaukee—Sebastian Walter, 74, a pioneer in the enamel and stamp manufacturing business in the United States, and prominent many years in civic affairs at Milwaukee, died Wednesday night at his home here.

## TIME NOW TO ASK FOR ABSENT VOTER PRIMARY BALLOT

Sample Ballots Will Be Released by Printer This Week

Sample ballots for primary elections will be ready Friday, it was announced at the office of the county clerk. As soon as the ballots are released by the printer, voters who expect to be absent from the city on election day may obtain them from the county clerk and leave them with him.

An application blank for a ballot will be sent upon the request of any voter who expects to be absent on that day. This must be applied for not less than three days before election and sufficient time should be allowed for the blank to reach the voter, to be filled out and mailed to the county clerk, and the ballot to be sent to the voter and returned to the election clerk in time before the polls close.

## FAKE CHECK GIVES CLEW TO ROBBER

Man Believed To Be Odd Fellow Building Thief Narrowly Escapes Capture

Capture of the man who is supposed to have robbed offices in Odd Fellow building recently, and who was at tempting to cash a bogus check at most was effected by the police, but the suspect disappeared too quickly.

The man visited a local bank and presented one of the printed checks of the firm of Joseph Koffend and Son. It is believed he stole the blank checks when the offices in the Odd Fellow building were ransacked, and filled one out.

The signature on the check did not look genuine and the teller took immediate steps to find out. He remarked to the man that the signature appeared false and said he would telephone the Koffend office about it.

"Oh, don't bother about it," said the man at the window. "Mr. Koffend himself is right outside. I'll go and bring him in."

The stranger turned about and left the bank quickly, disappearing before he could be traced. Notice was given the police department, together with a description of the man, but he evidently has left the city as he has not been seen.

## THE STAGE

Another "Dandy" Hot Weather Bill Today will be shown for the last time the picture that is different Jack Holt in "The Man Unconquerable", if you like thrills mixed with romance, here it is.

Babe Daniels in "Nancy from Nowhere" comes for Friday and Saturday at Fischer's Appleton Theatre. The story of a wistful beggar maid and a youthful American prince.

Nancy, played by Babe Daniels, is an orphan whom the Kellys, a low pair, have taken from an orphanage. They live in a miserable shack in the country and Nancy does all the work. Jack Hallday meets Nancy while fishing in the neighborhood, and advises the girl to run away from the Kellys to the city. She does on the back of Jack's own car, he discovers her as he reaches home and takes her in. His parents are away, so Jack turns his dusty guest over to the housekeeper and orders from his mother's modiste a lot of clothes for the girl. Jack's parents have picked a girl from his own class for him and this young woman, learning that Jack has a feminine guest, telegraphs his parents. They return while Jack is absent from the house, and persuade Nancy to leave, saying that she will ruin his prospects by staying. Nancy, broken hearted, goes back to the Kellys, but Jack follows shortly and tells her that he wants to marry her. "Being just nobody is even worse than being somebody's poor relation."

Seat sale for Winninger Players Starts today at Bell's Drug Store. Mail orders now coming in for the seasons biggest extravaganza and musical comedy "Listen to Me" better get your seats now as it looks like an early sell-out.

## AUTOMOBILE STOLEN FROM RENTAL AGENCY

Police of several cities are looking for a young man who gave his name as Ralph Hammen, 217 Law-st., on a charge of stealing a Ford coupe from the Ford Rental agency the night of Aug. 25. Investigation has disclosed that both the name and address are fictitious.

A description of the stolen car has been sent broadcast.

Little Cottage Here Outside of a case of tuberculosis and a case of scarlet fever, no contagion has been reported in this city, according to Dr. W. C. Felton, health commissioner. A few cases of whooping cough also are reported from time to time. The persons quarantined for scarlet fever will be released in a few days, it was announced.

Travel in Groups Traveling in large parties is one of the popular methods of touring nowadays. Twelve Chicago people using several automobiles spent the night at a local hotel while on their way to the northern lakes. All will take up cottages and expect to have a more delightful vacation because of their numbers.

## Hand Organ And Monkey Provide Fun For Kiddies

An Italian with a hand organ and monkey entertained residents of the First and Second wards Wednesday. Thursday morning he left town. He walked the ties to Appleton Junction where he caught a southbound freight train. At the city park he furnished amusement for a crowd of children who were attracted by the antics of the monkey.

## 2 SUITS GROW OUT OF AUTO COLLISION

C. S. Fish Asks \$227.54 and Mrs. Theresa Grootmont Wants \$40

A suit for \$227.54 for damages alleged to have been done to his automobile in a collision on Locust-st. bridge July 12, has been filed by C. S. Fish against Mrs. Theresa Grootmont and the defendant has filed a counterclaim of \$40 against the plaintiff. The case will be heard by a jury in the lower branch of the municipal court Sept. 6.

Mr. Fish states that he brought his car to a dead stop on the right side of the bridge when he saw that the defendant was trying to pass another automobile going in the same direction. In doing so Mrs. Grootmont drove to the left side of the bridge and struck the Fish car, damaging it to the extent of the amount named. Mr. Fish states.

Mrs. Grootmont in her counterclaim alleges that the plaintiff was driving carelessly and at a reckless rate of speed when the cars collided.

## TOURISTS CARRY RADIO OUTFITS IN THEIR CARS

Radiophone receiving sets, like pet cats dogs and goats, have become a traveling necessity to some motorists. This week a party of tourists who were camped at Alicia park no sooner the supper dishes cleared away when they began to erect an aerial and tried to tune in with some of the broadcasting stations of the country. They were not successful, however, until they received the assistance of a local man who is at present erecting an aerial in the park.

## BUILD ANOTHER GARAGE ON WEST COLLEGE AVENUE

W. H. St. John, Green Bay, To Put Up \$15,000 Structure

Appleton's west end business section is to have another new garage through awarding of a contract to Earl F. Miller, Inc. by W. H. St. John of Green Bay, Fox River valley distributor for Maxwell and Chalmers automobiles.

The Green Bay man purchased the property at the northeast corner of College ave and Locust-st, through A. H. Krugmeyer, and will begin erection immediately of a 1-story brick and tile building to cost approximately \$15,000.

Dimensions of the structure will be 45 by 102 feet, and there will be a display room 30 feet wide across the entire front. The remainder will be used for a repair shop and live storage. Driving entrances will be provided on the Locust st. side and on the alley at the rear.

Mr. St. John already has opened his agency here, taking up temporary quarters in another garage. His new building is to be rushed to completion.

## MEET FRIDAY NIGHT TO PLAN MASONIC OUTING

Plans for the annual Masonic picnic Labor day will be arranged at a meeting of the general committee and chairman of subcommittees to be held in the Masonic lodge rooms at 730 Friday evening. The outing will be held at Utowana beach for all resident Masons, Eastern Star members and their families.

Fingers Severed William Schultes, 412 Cherry-st., lost half of the index finger of one hand and the tip of his first finger in an accident at the Kurz and Root plant Wednesday morning. He was operating a metal press and the fingers became caught in the machine. He is confined to his home and suffers considerable pain.

## Add Twin Beds To Fads Killed By Old Hi Kos

Twin beds are no longer in great demand. It is another of the despicable fads of old Hi Kos. There has been no change in the desire for the thoroughly modern and healthy arrangement of sleeping quarters, but twin beds are a luxury which few people feel that they can afford at the present time.

Two items of expense enter into the falling off of the demand for the twin bed. The first is the initial cost of the beds themselves, which is almost that of a full sized bed and the second is the cost of maintaining a bedroom large enough for the two pieces of furniture. Except in the larger houses, the rooms have not been arranged with the idea of two beds and for that reason, the room is crowded with them. One dealer hinted that the women did not really like the beds because they are twice as much work to make, require twice as much washing and twice as much bedding.

Bitten by Dog The 10-year-old daughter of George Vogel, State-st., was bitten on the hand yesterday by a dog owned by Joseph Stoffel. The police department has ordered the dog locked up for nine days to ascertain if it has rabies.

## OFFICE SEEKERS FLOCK TO FAIRS

Advertising Literature by the Bushel is Being Distributed

As primary election day draws nearer candidates for county offices have opened an intensive campaign and are out almost daily soliciting votes. Practically all of them were at the Seymour fair Wednesday and a large number of them have already been taking advantage of picnics in rural districts. Political campaign literature, such as cards, posters and placards have been distributed by the bushel. Some automobile drivers, too, are openly advocating the nomination of their friends by signs on the windshield.

The only two candidates who are without opposition this year are Dr. H. E. Ellsworth, coroner, and Frank Charlesworth, surveyor. The primary election will practically determine the election of some Republican candidates, as a number of them are

## 30,000. PHONE CALLS A DAY IS AVERAGE HERE

**Demand for More Service Has Made Increased Facilities Necessary**

How often have you used your telephone today? That depends largely on why you have installed a telephone—for emergency, business or pleasure. If the last mentioned case fits you, you may not have enjoyed yourself as much as you did yesterday. If you are in the first place, it is likely that you did not use the telephone at all this day, whereas your friend in business may have used it 100 times. There is no such thing as overworking it. Neither does it improve with age.

If you asked or received less than six calls, you are below the average. Nearly 30,000 calls is a day's average for the Appleton central of the Wisconsin Telephone company. That is more than it was a year ago. Indeed, the demand for additional service has been increasing at such a rate that it has been necessary to erect a new addition to the building on Superior st. In another week new sections of local and long distance switchboards will be completed.

**LOTS OF TALKING**  
Nearly 30,000 telephone calls a day in a city of this size, might give one the impression that people are talking too much. But few persons use the telephone without sufficient reason, it is believed. While some users of party lines insist that most calls are in less time than they are accustomed to, every one knows that a telephone is a great step and timesaver in itself.

In order to conserve as much time as possible, the telephone company does its share by the employment of a service observer. A careful record is made each day of the accuracy and speed with which each operator answers calls and makes connections. The results are indicated daily by the service thermometer.

**DEMAND FOR MORE PHONES**  
Not only has there been an increased demand upon the use of the telephone, but there has also been a demand for more telephones in the city. Like last year this demand has been so great in some sections of the city that it exceeds the supply. When applications for telephone installations are made in new portions of the city, a complete survey is made of the district, and cables then are extended to supply that territory for ten years hence.

Once a fair estimate could be made of the population of a city by the number of telephones in use there, but the proportion of patrons to the number of telephones has been increasing at such a rate, that such an estimate is now considered unsafe. In 1900 there was one telephone to every 90 persons in the United States. In 1905 it was one to every 34 persons; one to every 16 persons in 1910, one to every 11 in 1915, and one to every 8 persons in 1921.

Based on the last census, there is now in Appleton one telephone to every 5 persons. There are about as many telephones as homes. This does not mean that every home has one, for there are many business houses, that use several telephones.

"The number of telephones in use in a city is no index to prosperity," said H. M. Fellows, local manager. "Even in times of depression, the telephone is one of the last conveniences that a family will give up. This shows that a telephone is now being considered more of a necessity than a luxury."

## WANT 402ND I.R.C. AT FULL STRENGTH

Recruiting of the 402nd Infantry Reserve corps of the United States army to its full strength gradually is being accomplished in the district comprising northeastern Wisconsin. It is the hope of this officers to secure a large number of enlistments of veterans of the World War within the next few months.

Major Albert A. Tucker, resident officer of the regular army, is active daily in recruiting men and perfecting the skeleton of an organization which will be at the country's finger tips in case of a great national emergency such as the World war.

## NEW PLAYER COPS TENNIS TOURNAMENT

Miss Marion Ingenthron is winner of first place in the tennis tournament conducted by the tennis club of Appleton Women's club. The champion began her tennis playing early this season and through persistent work was able to outshine many others in the club who have been playing for several seasons.

Miss Edna Storm, also a comparatively new player, won second place and Miss Claire Steffen, third place. The finals of the contest were played Monday evening, but elimination games had been played for three nights previous among 12 entries in the tournament.

Silver "hope chest" teaspoons were awarded to the girls by Mrs. L. C. Sleeper, chairman of the recreation department of Appleton Women's club, at a social following the contest. The end of the tournament does not mean the end of the tennis season for the girls and they will go on playing as long as the weather permits.

## Stores Cooperate With High School To Train Pupils In Salesmanship

**Theory of Merchandising Will Be Taught in Classes and Practical Experience Will Be Gained Back of Counters.**

Salesmanship in both theory and practice is to be added to the curriculum of Appleton high school this fall under a unique plan which will be perhaps the first of its kind ever attempted in a high school in the United States.

Responding to a need and demand, especially in retail establishments, the school will have a daily class in selling using the best courses obtainable and then will give the students actual laboratory work behind the counters of retail stores. Lee C. Rasey, principal explains. Fifty students already are enrolled for the course.

The plan has been worked out by Mr. Rasey with the cooperation of Miss Decima Salisbury, head of the high school commercial department, and H. L. Post of Pettibone-Peabody company. It is understood that the Pettibone store and the Geenen Dry Goods company already have offered their establishments as laboratories for selling experience. Other merchants are to be approached concerning the plan within the next week or two and will be asked to allow pupils to spend one or more hours a week in their stores.

**PRACTICAL TEACHER**  
Miss Dorothy Gregory, who was an instructor in the English department here last year, is to be the teacher of the new class. She studied the theory of selling extensively and then gained practical training and experience in the executive school conducted by the Macy department store, New York.

It is the plan of the school officials to hold a daily class in salesmanship.

This group will be divided so that one-half has store practice at designated times each week and the other half will have office practice. Next semester the arrangement will be reversed. There are six students of the selling group who are not enrolled in the commercial course, and these will not be required to take the office practice.

An attempt is to be made in the commercial department to give every student a mastery of office details within the school itself. Actual practice in preparing business correspondence, filing, handling of office devices and execution of other duties will be given in addition to the usual bookkeeping, accounting and stenographic courses. Adding machines, dictaphones, bookkeeping machines and other such devices will be rented or borrowed from office supply firms for the use of pupils.

**ERA OF SALESMANSHIP**  
One business man of Appleton will be asked to appear before the office practice class each week to explain what he demands of his office help. Observation trips will be made to several of the largest offices and the methods and work explained.

In explaining the decision to train young people for the selling profession, Mr. Rasey said:

"We have heard it said by speakers at the chamber of commerce forum meetings, in business publications, by economists and others that the next 25 years will be an era of salesmanship, and we decided to get ready for it by training our commercial students along that line. It is said that business in the next 25 years will be done on a falling market, and the highest type of salesmanship will be necessary to business success. The trend will be the opposite of the last

## ENORMOUS CROWD AT SEYMOUR FAIR

More than 9,000 persons were in the fair grounds at Seymour Wednesday, making up one of the largest crowds in years. About 100 automobiles from Appleton were included in the thousands parked within the enclosure.

Horse races and baseball games were the features. At least 3,000 persons watched Appleton defeat Green Bay, 8 to 6, in an interesting game. The high grandstand along the race track was filled to capacity during the races.

25 years, when, since the depression of 1893 business was done on a rising market. Business men were safe then, but now are obliged to meet the change."

The idea of being able to obtain clerks trained in salesmanship is welcomed by merchants here.

**MUST KNOW METHODS**  
"It has commonly been the practice for anyone who wished to take up retail selling to enter a retail store and through years of association with salespeople, acquire selling ability," said H. L. Post in speaking of the idea.

"The modern retailer, realizing that he must give good service to his customers, must have salespeople who understand the modern methods of rendering satisfactory service. He therefore has given the matter of sales education considerable thought. Some stores have been obliged to establish their own educational organizations in order to meet this need.

"Retailers in Appleton hope this action of the high school will have a tendency to attract young men and women of ability toward the merchandising field during their formative years. They hope by bringing forward the possibilities of the future in this line they may build up stronger organizations for service to the public."

## THE SENATE'S TARIFF BILL

Probably few measures that have passed either house or congress have been voted for by as many members who were dissatisfied with them as the tariff bill that passed the senate by a vote of 48 to 25 Saturday, according to the program that had been arranged a week ago. Senator Borah, the only Republican who voted against it, opposed the flexible tariff provision, which he did not regard as constitutional, but Senators Lenroot and Jones (Washington) supported the bill because of that provision, through which they hope to see some of its excessive rates reduced. Three Democrats voted for the bill—Broussard, who consistently votes with the Republicans on tariff matters, and Randall and Kendrick, who frequently do. So the bill goes to conference with McCumber, Smoot and McLean, Republicans, and Simmons and Jones (N. M.), Democrats, representing the senate. La Follette having evidently lost all his seniority rights.

The bill as it was reported to the senate by the finance committee was not the bill that passed the house, and the bill that passed the senate was not the bill reported by the finance committee. Few, if any, bills have undergone so many changes, or caused such crisscrossing of party lines in the votes on separate items. Vigorous fights in which protesting Republicans often joined the Democrats, kept some important commodities on the free list—such as hides, boots and shoes, brick, cement, logs, potash, white arsenic and wood pulp—but heavy additional burdens were put on the people by increased rates on sugar, wool and cutlery. Undoubtedly there is a confident expectation among some of the senators who supported the bill that there will be much revision downward in conference, and there is every reason to believe that so many changes will be made that it will in effect be a new measure, or the fourth since the introduction of the original bill in the house June 29, 1921.

The bill as it stands has little or no support outside of congress except from the beneficiaries of the high duties it imposes, and it has been vigorously opposed by many of the most important Republican newspapers of the country, such as the New York Tribune, New York Herald, Philadelphia Ledger and Chicago Tribune. The party managers plainly doubt the wisdom of its passage, and fear the election effects of the price increases it will cause; for, with all the difference of opinion as to how much prices will be raised, not even the bill's most persistent supporters attempt to deny that price increases will be the effect of it. Tariff optimists think that the revision work of the conference can be done in a month, but this is doubtful. If the program is carried out as expected and the bill passes both houses—though here again there may be delay, if not something worse—the latter part of September, the Democrats will have six weeks to stomp the country, and use the political ammunition with which the tariff makers have so generously provided them.

## MOVING FROM JOB TO JOB

Thirty-four men who were associated together in business for fifty years assembled at the lake front residence of the company's president, near Chicago, a few days ago. The emblem of the half-century of service is a diamond pin, which this year was conferred on the chief executive himself.

Thirty-four is a small percentage of the total number of employees, and not a large per cent of the total number of officers, which the institution has had in ten decades. For in trade it is the usual thing

for men to come and go, some to better opportunities, some into mistakes, some into change. The lapse of but a few years marks almost complete upheaval of an organization, with new faces and altered methods, often with new policy.

After men become versed in a business or profession, and are addicted to it through information of occupation-habit, they are unfitted for anything else. If they invade another field of experience, they soon are surprised at the compulsion to unlearn predisposition to certain mental custom which they acquired unconsciously by previous application to work. They have set ways, and the truth is forced on them that they cannot easily adopt themselves to entirely different endeavor.

But it is not uncommon for men to drift from one company to another, even from one city to another, always remaining in the same or a like business, profession or trade. Men keep moving from station to station until they are located congenially, and a certain number make changes simply because they are unstable or dissatisfied. There must be some inducement for men to linger in one environment for a half a century. The average person, after attaining to prime, likes to be entrusted with latitude and responsibility, and, if he has the liberty, fifty years are as short as fifteen.

No rule is suited to every individual. It is frequently more prudent to make a few cautious changes than to stay attached to one company. The only unwise measure is to make too many changes. Once a man ascertains where he belongs he knows where he can be most successful.

## MR. GOMPERS ON THE RAILROAD BOARD

In opposing recommendations to strengthen the United States Railroad Labor Board, and to make both the railroads and their employees subject to it as the supreme and final arbiter, Mr. Samuel Gompers, head of the American Federation of Labor, is bucking public opinion. The public properly and rightly believes in organized labor, as it realizes from experience that organization is necessary to curb organized business. Labor would be enslaved if it were not organized.

It would be shrewd on Mr. Gompers' part to court public favor rather than rebuff it. For nothing would prove so injurious to labor's cause as being in the attitude of taking issue against the public, or putting the people to injury or inconvenience.

The public loses money and suffers through railroad disputes which impair or halt transportation. It has been exemplified by the shopmen's strike, with the two parties directly at interest unable to reach an agreement, that the government must undertake to prevent strikes and walkouts. As far as disturbances are concerned, the people do not look at them in the light of fights over the open-shop issue, but as lawbreaking. The line is drawn, not concerning the open or closed shop, but regarding peace disturbance.

Mr. Gompers and his associates would manifest wiser policy by trusting in the authority of the government and denouncing and preventing disturbances. It is impossible to win popular approval by running counter to public opinion. Nothing could please capital more than for labor to oppose public opinion and antagonize the government in governmental efforts to promote the public weal. It gives capital a chance to say that labor is not fighting capital, but is fighting the public. It enables capital to bring the public into the war as a victim.

Capital and labor operating public utilities must accept governmental regulation. The public cannot be punished by capital-labor disputes. The diplomatic policy would be to recognize conditions as they are and strive to win public support.

**Treasure-Givers**  
There is one job that ought to make every non-holder of it green with envy—and that is the job of children's librarian. Not that the position is one of the highest paid, in money; or one that brings renown to its occupant. It is, in truth, a humble place, a sort of janitorial job, as of one who holds the keys to hidden mysteries.

But what a treasure house those keys unlock! What a wealth of fancy, what a land of dreams, what a world of joy and inspiration!

The juvenile department of the public library—and by that we mean any public library, large or small—is capable of a wonderful amount of accomplishment, in guiding young people to the sincere and worthwhile books and away from the trashy books; in baiting them on to read good literature.

No one should despair of the children of today who are being led to read "Treasure Island," "Boy's Life of Abraham Lincoln," "Little Women," "Wonder Book," "Christmas Carol," and the rest that some wise librarians have grouped on a "two-foot shelf" for young people.—BOSTON TRAVELER.

## Health Talks

BY WILLIAM BRADY, M.D.  
Noted Physician and Author  
Dr. Brady will answer all signed letters pertaining to health. Writers' names are never printed. Only inquiries of general interest are answered in this column, but all letters will be answered by mail if written in ink and a stamped self-addressed envelope is enclosed. Requests for diagnosis or treatment of individual case cannot be considered. Address Dr. William Brady, in care of this paper.

## Signs of Diseased Tonsils

In a remarkable study of five thousand children before and after removal of their tonsils, which I shall refer to in greater detail in subsequent talk, Dr. Albert D. Kaiser of Rochester, N. Y., groups the children thus:

1. Children who had definitely enlarged tonsils with clinical evidence of infection, 3,633, 73 per cent.  
2. Children who had enlarged tonsils without clinical evidence of infection, 176, 3.5 per cent.  
3. Children whose tonsils appeared normal yet presented to the physician evidence of infection, 1,112, 22.5 per cent.  
4. Children with tonsils of normal appearance and no evidence of infection, 50, 1 per cent.

"Evidence of infection" means that when examined by the physician or throat specialist the tonsils were found to be diseased; they harbored depots of foci of disease germs.

Another table given in Dr. Kaiser's report shows the complaints previous to operation in the 5,000 children with diseased tonsils:

1. Mouth breather, 3,587, 72 per cent.  
2. Frequent sore throat, 2,570, 57 per cent.  
3. Frequent colds, 2,309, 46 per cent.  
4. Enlarged lymph nodes in neck, 2,182, 43 per cent.

5. Ear trouble, 1,131, 22 per cent.  
6. Frequent attacks of fever, 423, 9 per cent.  
7. Joint pains ("growing pains"), 200, 4 per cent.  
The "growing pains" and frequent colds mean that a child with diseased tonsils is more susceptible to any and all of the respiratory infections, including such diseases as diphtheria, scarlet fever, measles, pneumonia, meningitis and infantile paralysis, than a child with normal tonsils or a child who has had diseased tonsils removed.

The "growing pains" means that a child with diseased tonsils is much more susceptible to joint disease, for instance, acute infectious arthritis (variously called acute articular rheumatism, rheumatic fever, inflammatory rheumatism and multiple arthritis) and to the complication of endocarditis or valvular heart disease which so frequently occurs, than is a child with healthy tonsils or a child whose diseased tonsils have been removed.

"Growing pains" generally signify systemic absorption of septic or poisonous matter from a septic focus or depot of infection (nest of disease germs) in the tonsils. Remember that a child's tonsils harbor such a septic focus on several foci yet appear healthy to the ordinary observer. A child's tonsils may be the source of serious systemic disease yet not be enlarged. A child's tonsils may appear enlarged yet not cause any injury to the child's general health or development. Finally, a child's tonsils may be neither enlarged nor infected (diseased) in any way, yet the child may suffer from mouth breathing, due to the obstruction of the nasal breathing route by a very large adenoid body, which is practically a third tonsil situated up out of casual sight behind the soft palate on the roof of the pharynx or throat.

"Ear trouble" means not merely earache, but running ear and deafness. The usual cause of earache, discharging ear or deafness in children is some nose or throat condition such as diseased tonsils, adenoids. But remember that 1,413 of these children who suffer from diseased tonsils were not mouth breathers.

**QUESTIONS AND ANSWERS**  
**Dad Turns Old Woman**  
These hot days I let our 18 months old baby play in the shady yard and in the house with nothing but his loincloth on. Friend husband insists that this practice is unhealthy as well as unmodest. What do you say about it?—Mrs. S. P. Answer—I congratulate the baby on his choice of mothers, but I—well, you say it. I don't like to call a man names unless I am sure he is a little fellow.

**Eating Before Retiring**  
Is eating before retiring an injury to health?—B. F. Answer—Only for over nourished folks. For skinny folks and those who take a reasonable amount of general exercise daily, a bedtime lunch or meal is very wholesome. The natural time to eat is before sleeping. Notion to the contrary arise from the evils of overindulgence and drinking coffee and alcoholic beverages late at night.

**Put On the Nose Bag**  
I am about to start on a vacation trip. I have been depending on wheat bran, which I eat with my cereal every morning, to prevent constipation. I fear I will be unable to obtain bran regularly while traveling. What can you suggest?—M. L. D. Answer—Toss a bag of bran in the wagon behind the seat. Or carry along a tin of whole flaxseeds and take a rounded teaspoonful raw with cereal, or washed down with water or other beverages, each morning. Bran is obtainable everywhere.

Does burning sugar and vinegar in a room in the morning tend to purify the air?—M. S. Answer—No. It creates an odor, perhaps substituting a comparatively harmless odor for some disagreeable and perhaps equally harmful one.

## TWENTY-FIVE YEARS AGO

Thursday, Aug. 26, 1897

A son was born to Mr. and Mrs. Dennis Verwey.

Mr. and Mrs. Carl Mathie returned to Wausau after spending the summer in Appleton.

The Rev. and Mrs. A. A. Drown returned from Wausau, where they attended the wedding of their son, L. A. Drown.

One of the busiest women connected with the approaching fair was Mrs. John Carey, superintendent of horticulture, whose time was almost wholly occupied with the duties of her office.

Mr. and Mrs. A. W. Tretten left for Oshkosh where they were to visit a few days before proceeding to Madison, where they were to attend the state university the coming year.

The annual state convention of the Catholic Order of Foresters was to be held at Green Bay, Aug. 31 and Sept. 1 and 2.

Assembly No. 2 of the Equitable Fraternal Union was organized at Temple of Honor hall with a charter membership of 167. The officers elected were: Henry Peterson, president; W. L. Maynard, vice president; A. W. Dallas, secretary; W. Edward Olmstead, past president; Rudolph Falkwarden; A. H. Weickert, C. A. Pardee and W. M. Slekman, trustees.

P. M. Conkey presented 50 volumes, all standard works, to the new public library.

While nothing was settled in regard to the matter there was a possibility of arrangements being made for extending the interurban line through Neenah to Oshkosh.

The Misses Ivy Ryan and Stella Morgan returned from a two days' bicycle trip around Lake Winnebago.

## Daily Editorial Digest

(Title Reg. U. S. Pat. Off.)

Resume of American and Foreign Newspaper Opinion

## WANT RAILWAY PASSENGERS PROTECTED AT ALL TIMES

A concerted demand is made that the government to make certain that in the future it is made impossible for passengers to have the experience which marred the trip of the Germano of their "hot" affair at Needles and the "similar incidents" indicate a concerted plan. They were crimes and the men who engaged in them are criminals. They should be brought to justice and no mid justice at that.

The New YORK HERALD and the Boston TRANSCRIPT agree that "no law is needed to put behind the bars the cowardly scoundrels responsible and the TRANSCRIPT further insists that "were the crime on the desert without its counterparts in other sections of the country it would be nevertheless indefensible. The striking shopmen and their sympathizers appear to be taking to the torch and the bomb, the axe and the hammers, and any other weapon for the purpose of terrorizing their fellow citizens. It took a great war to convince the Germans of their folly. It may take civil war to convince labor unions of their folly. If the right to work within the law is to be limited to the members of the railway unions then the sooner the issue is joined the sooner will the right to work again become universal. The crime on the desert brings home to every citizen the real meaning of the challenge to America that went forth from Herr...

The action of the Santa Fe men was "sabotage," the Springfield REPUBLICAN argues and "without any sort of justification. It will remain a blot on the records of the organization which, by lack of a system of proper discipline have left the way open for such flagrant disregard of the rights of innocent people. Short of a dangerous breakdown, of which apparently no evidence has been produced, the Santa Fe men are under the moral obligation, if not under the obligation of tradition and contract, to take the trains to a proper stopping place." It also partook of "making war upon the nation" the Brooklyn EAGLE insists while it points out that it is only one incident of what may be expected as "the consequences of a sympathetic strike. Compromise is unthinkable while murder, arson, and train wrecking are pursued as campaign tactics. Even though the unions are not officially responsible the Philadelphia EUTELIN is convinced that such tactics "will provoke heavy retribution upon the union cause. It has been said that the railroad executives are seeking to crush the union cause. These acts are bringing down upon the unions the crushing weight of an indignation which is not only justified but also inevitable. The Grand Rapids PRESS also believes that the desertion by the train crews "is symbolic of the policy of a national government which has installed itself in a desert of reasonless obstinacy and has gone farther and farther into a desert of futile parlay and kindly weakness, until it bids fair to fag out from general contempt and its own exhaustion. The government's retreats must halt or there will be no way out of the desert, but surrender to the small group which is attempting to thrust the folly of government ownership back upon the nation."

According to the New York GLOBE "the railroad can beat the shopmen but the tactics they are using in beating the shopmen are bringing them into collision with unions they cannot beat," and it holds that unless all of the questions which allow strikes of this kind are settled satisfactorily "the alternative is complete paralysis or government operation." The Brotherhoods all have an understanding, the ETHICA JOURNAL NEWS is convinced pointing out that "the action of some of their members in refusing to operate 'defective' equipment or refusing to work as long as the railroads maintained armed guards in the yards, and the outrageous and shameful proceeding which Santa Fe passenger trains were abandoned by their crews in the Arizona desert show 'where members of the brotherhoods stand.' And as there was warning neither to passengers nor officials, the SPRINGFIELD UNION holds that no one can sympathize with the Santa Fe deserters and it points out that "once more members of the unorganized public, innocent bystanders in the war between employer and strikers were made to suffer. The old doctrine that people do not want to be hurt they must keep out of the way was resurrected. This episode is bound to provoke public resentment against the strikers. There is no strike problem affected. It is a plain question of humanity and even those who are most inclined to side with labor in its controversies with capital will find it impossible to condone the action taken by the Santa Fe trainmen."

While this "may be a legitimate act of industrial warfare," the Cincinnati COMMERCIAL TRIBUNE bitterly declares that "it is execrable manifestation of manhood and the very antithesis of Americanism. If labor is going to advertise its cause as in need of methods that are quite as inhuman and shameful as some of the worst phases of junker-initiated methods of black outrage, that division of it, responsible or approving, will quickly find pronouncement of the

most scathing anathemas by an outraged Americanism. Riot and anarchy will be, ever have been, taboo. Righteousness does not need, cannot find aid in radicalism. The malodorous memory of the Herrin horror will long linger a stench in the nostrils of America. Railroad labor will do itself ill service in any of its divisions by perpetrating or condoning such ruthless tactics in infliction of un pardonable affliction. Cruelty to help less noncombatants is the most contemptible resort of cowardice." Similar sentiments are entertained by the Atlantic CONSTITUTION which argues that "the only difference between the situation of the Santa Fe passengers and that of the general public is that their peril was acute while that confronting the masses generally is none the less certain unless relief is supplied. And it is just as much the obligation of the government to safeguard all of the people against such a menace as it was to relieve the few who were suddenly face to face with immediate peril in the desert."

Completely endorsing this contention is the Cambridge JEFFERSONIAN which feels that "the most important thing of all is that hundreds of helpless and innocent persons were imperiled without their fault an without their consent as the results of an industrial dispute with which none of them had anything to do; and that this is another illustration of the necessity of finding a different method and a better method of settling such differences." Incidentally, the Bay City TIMES TRIBUNE declares that "treatment of passengers in this fashion will make people hesitate about starting on long journeys for fear they will be held up and put to much expense and inconvenience. When strikers thus treat the public how can they expect the sympathy and support of that public?"

**CALL ON AMERICA LAST**  
Paris—Writing in L'OEUVRE M. Camille Lemerier suggests that Europe should first settle her differences and then, as the United States of Europe, turn to the United States of America. He says:

"In order to improve German finances and put them in a position to pay at least something to their creditors, the Reich must be made to issue an international loan; and to ensure its success, the German debt must be fixed at a reasonable and definite sum, which means that it must be reduced."

"But how can it be asked of France, Germany's chief creditor, to abandon a part of what is due to her, if she is to be obliged to pay her allies the last cent of what she owes for raw materials, food and munitions which she bought for the common cause? The problem of interallied debts must first be solved in favor of France, before any settlement of the reparation problem is possible."

"Everybody is agreed on this point in England and France, everybody except the French and English governments."

"Mr. Lloyd George is often reproached for his versatility, but on the question of the interallied debts he has always said the same."

"On the 31st May last he declared in the House of Commons that Great Britain would only abandon a part of her credits on condition that a part of her claims on the United States were similarly cancelled."

"On the 22 June he repeated the same statement. And even since the recent German crisis he has said the same thing."

"As to M. Poincare he has been content to approve what Mr. Lloyd George and his ministers said."

"Thus each time it is a question of interallied debts, both the British and the French Premiers say with one voice:

"Certainly this is the key to the European situation. But we cannot touch this key. We must wait for the United States to put it in the lock."

"This waiting is likely to be very long. American opinion is on the whole hostile to any reduction of European debts."

"In New York and in the East a certain number of bankers and great industrialists might be found who would be willing to make some compromise with Europe, but the electors of the Centre and the West, and especially the farmers whose influence is growing daily, will not hear of any reduction."

"And American politicians—who are not any different from those of Europe—are thinking of the November election."

"The United States will not do what Mr. Lloyd George is wanting them to do."

"And M. Poincare, instead of simply repeating the statements of the Prime Minister, ought to have realized months ago the real attitude of American opinion and decided not to wait for the United States. The interallied debts is after all partly a European problem which ought to be settled between European nations. And when this has been settled we could turn to America not as isolated nations, but as an association of European allies, the beginning of the United States of Europe."

"For the United States of America would not doubt do for the United States of Europe, united in a common policy of peace and reconstruction, what she would not do for different European nations, all at rivalry with each other."

"It is not yet too late to try this. But we must expect Mr. Lloyd George to ask us to make some sacrifices in our turn if Great Britain is going to make some."

"If it because we are afraid of these demands that we have not yet started the conversation? And are we going to keep our debts—so as to be able to continue the Rhine occupation?"

## Another Piece Of Hokum

No chop suey anywhere in China, reports Walter G. Whitten, American newspaper man stationed at Peking.

Quite natural, for chop suey is an American dish, invented by an American chef years ago in San Francisco.

It is part of the hokum which makes up nine-tenths of our civilization. "A front, a bluff and a little paint, and the world will think you what you ain't."

Henry Ford predicts that eventually there will be 30,000,000 autos in the United States. That, says Ford, will be the "saturation point," night-mare of people in the auto business. Thirty million autos would be nearly three times as many as we have now.

Ford expects one auto for each four or five people. The ratio now is one in ten.

Passenger traffic may shift to airplanes before autos reach the 30,000,000 mark.

Woolworth 5-and-10-cent stores are selling goods at the rate of \$166,000,000 a year. Multiply it by 20 and you have the number of nickel purchases necessary to make the year's sales.

This business is a greater monument to its founder than the Woolworth building. It shows what a gigantic thing can grow from the small seed, a new idea.

Hundreds of big business men band together in an organization.

(Any reader can get the answer to any question by writing The Appleton Post-Crescent Information Bureau, Frederic J. Haack, Director, Washington, D. C. This offer applies strictly to information. The Bureau cannot give advice on legal, medicinal, and financial matters. It does not attempt to settle domestic troubles, nor to undertake exhaustive research on any subject. Write your question plainly and briefly. Give full name and address and enclose two cents in stamps for return postage. All replies are sent direct to the inquirer.)

Q. Why was Christy Matthews called Big Six? E. M. S.  
A. He was so named for a New York chapter of the Typographical Union. This No. 6 was so prominent in labor affairs that popular Christy Matthews was also called Big Six.

Q. What people eat the heartiest breakfast, the French, the English, or the Americans? R. T.  
A. The French as a rule eat nothing until midday except a roll with a cup of chocolate upon arising. The English have a heartier breakfast, but even this the average American and Canadian would consider meager. On this continent, fruit, cereal, eggs or meat, some kind of bread and coffee is a normal breakfast.

Q. Why will cement set under water? W. D.  
A. The hardening of cement is due chiefly to the decomposition of compounds of lime upon the addition of water, resulting in the formation of calcium hydrate, which on crystallization binds together the other solid ingredients. The initial setting is due principally to the decomposition of the aluminates, while the final hardening depends more upon the action of the silicates.

Q. How long was Theodore Roosevelt on his trip to South America? C. D. D.  
A. Roosevelt sailed for South America in October 1913 and returned to his home in May, 1914.

Q. How are petroleum stocks classified? L. H.  
A. They are classified as producer's stocks; pipeline and tank-farm stocks; and refinery stocks and stocks held by other consumers.

Q. What is the technical name for a lease on a vessel? W. J. R.  
A. The written agreement under which a vessel is leased is called a charter party.

Q. What is the value of poultry raised in the United States in a year? I. M. C.  
A. The total value of poultry raised

in 1921 is as follows: chickens, \$373,500,000; turkeys, \$12,900,000; geese, \$7,000,000; ducks, \$4,900,000; guinea fowls, \$1,900,000; pigeons, \$1,400,000.

Q. What is the largest lake in Europe? M. S. E.  
A. Lake Ladoga, situated in Russia, near St. Petersburg, has this distinction. It is 125 miles long, 45 wide, and has an area of 5,938 square miles. Its greatest depth is 730 feet.

Q. What was the origin of the expression "a year and a day"?  
A. Under the rule of common law, a fraction of a day was not recognized and the last day of any given period of time was considered completed for legal purposes as soon as it began. Therefore, to provide for the actual expiration of a full calendar year it was necessary to add a day.

Q. What is a red letter day? G. L. C.  
A. Formerly red letter days were those so indicated in the calendar of days in the Book of Common Prayer and some prayer books are still printed in this style. In general usage the term has come to mean especially fortunate or auspicious days in a person's life, or days to be remembered because of some important event or benefit.

**PLAGUE OF MICE**  
London—The Geneva correspondent of the Daily Express says: The large and fertile valley of Ajoie on the Swiss-French frontier is suffering from a plague of mice. "Drives" have been organized by the municipal authorities, who offer a halfpenny for each dead mouse. In the village of Cornol 17,000 mice were killed or captured, while the "bag" for one day in the village of Courgenay was 10,000.

Poison gas is now being injected into the subterranean galleries formed by the mice, thousands of which are thus destroyed. It is believed that the mice have migrated from the trenches in Alsace.

## Heroic Mother Saved When Her Car Is Wrecked

Marshfield, Wis.—Mrs. Otto Jahnke and five children had a narrow escape here when the automobile in which they were occupants was struck on a railroad crossing by a string of sixteen runaway freight cars carried 100 feet along the Omaha road tracks and demolished. The auto came to a stop after striking a bridge, where the woman and her youngest child fell twenty-five feet to the ground below.

The accident occurred when Math Gessert, a brother of Mrs. Jahnke, driver of the car, failed to see the string of freight cars which quietly glided down upon them.

Gessert escaped by jumping, and, one by one, four of the children were assisted out of the moving machine by their mother, receiving but a few injuries, while the automobile was being run along the right of way at the head of the string of cars. Rather than abandon her baby and being unable to remove it from the auto, Mrs. Jahnke stood on one fender of the car.

As the machine and cars neared a small elevated bridge about 100 feet west of the crossing, it became caught in one of the rails and was torn loose from the cars. A railing on the bridge was demolished, but the wreckage held one side of the automobile up, while two wheels hung over the edge. Mrs. Jahnke and the baby fell from the fender to the ground below, a distance of twenty-five feet. Neither was seriously injured.

Raymond, 14 years old, Mrs. Jahnke's eldest son, was cut on one of his legs while attempting to assist his mother after making his escape. The automobile was a total wreck.

## PERSONALS

Mr. and Mrs. Frank Deimer and Mr. and Mrs. R. Pula of Greenville left Monday for a trip through Minnesota. Mr. and Mrs. H. H. Cole and their family of Appleton and their nephew, George LaBude of Elkhardt, have gone to Eagle River for a camping trip.

Earl Engel of Cleveland is spending a week visiting friends and relatives in Appleton.

Mrs. Maurice Peerenboom left Thursday afternoon for Manitowish where she will spend the weekend.

Miss Christine Dohr, who has been spending the summer at her home in Stoughton and in Chicago, has returned to Appleton and taken an apartment in the Post building.

Mr. and Mrs. A. E. Skinner and family, who are motoring through from Duluth, will stop in Appleton for a few days to visit at the home of Mr. and Mrs. H. B. Peterson.

Mrs. Bertha Berg is spending two days at Bear Creek as the guests of Mrs. Fred Ralsler.

Miss Jean Patterson arrived in Appleton Monday evening, Calif., to spend two weeks before going to Detroit where she will teach school.

Miss Della Goemans has returned to St. Francis hospital in La Crosse where she is a student-nurse. Miss Marguerite Jansen, who is about to enter training at St. Francis hospital accompanied her.

Mrs. Fred Krebe of Berlin called on Appleton friends Wednesday.

Miss Olive Otto left for Madison Thursday morning to attend the wedding of her friend, Miss Cleo Voss.

Mr. and Mrs. William Bailey and Mr. and Mrs. Louis Kaphingst spent Wednesday at the Seymour fair.

Edward Rogers of Milwaukee is visiting Appleton relatives.

Mrs. Fred Brier, 85, is critically ill at her home on Richmond-st.

Mr. and Mrs. Albert Roy Walker, who were married at Long Beach, Calif., where they will make their home.

Miss Marie Ziegenhagen spent Wednesday at Seymour attending the fair.

Miss Alta Schulz of Cheboygan, Mich., is visiting relatives here.

Mrs. Frank Krelling, 1141, Lawrence-st., was taken to St. Elizabeth hospital in an ambulance Thursday morning.

Mr. and Mrs. A. C. Longstadt left Thursday morning for Elkhorn, Ga. and LaCrosse.

The Misses Irene Ring of Seymour and Rena Gehring of Appleton and Ewald Ring of Seymour returned Tuesday from a several days' auto trip to Milwaukee where they were the guests of Mr. and Mrs. Charles Rentner and Mr. and Mrs. M. Jahnke.

Mr. and Mrs. M. J. Hruska and family of Neenah and Mrs. N. E. Magnus of Appleton returned Wednesday from a trip through northern Wisconsin and Michigan. They visited relatives at Oconto, Nadeau, Escanaba and Manitowish. They report that near Nadeau the blueberries were plentiful, but near Manitowish the crop had been blighted by frost. Blackberries are plentiful and cheap in Michigan. The crop at Neenah was large and any amount of berries could be purchased at 15 cents a quart.

Mr. and Mrs. Martin Walter and children visited relatives and friends in Appleton Tuesday while returning home to West Bend from a several weeks' automobile trip to the northern part of the state.

Miss Calla Gulyes of Manitowish, who resigned her position as a member of Appleton high school faculty to accept a position in Madison, high school, visited friends here Thursday.

Dr. G. A. Ritchie and daughter, Miss Margaret Ritchie, are guests of Dr. and Mrs. R. M. Bagg at Ephraim.

## MARRIAGE LICENSES

Applications for marriage licenses were made in the office of the county clerk Thursday as follows: Paul F. Jacoby and Helen D. Ralls, both of Elgin, Ill.; Basil F. McKenzie of Turley, La. Wis., and Helen J. Sherman of Appleton.

## BASKET PICNIC AT BEACH LABOR DAY

Final arrangements for the Labor day program were made at the regular meeting of the Appleton Trades and Labor council in Trades and Labor hall Wednesday evening. A committee has been left in charge with the details of the basket picnic to be held at Waverly beach on that day.

Dancing will begin at 2 o'clock and will continue through the afternoon and evening. In addition to the usual picnic amusements, games and contests will be held. Members of 29 local unions and their families will be represented at the picnic. It was decided not to have a labor parade or formal addresses.

## PARTIES

Mrs. H. W. Meyer, Jr., entertained a few friends of Mrs. C. C. Taylor of Chicago in her home on Wednesday afternoon. The party took place at Mrs. Meyer's home, 707 Morrison-st.

Mr. and Mrs. Anton Van Hoof entertained 40 guests at their home in Freedom on Sunday. The out of town guests included Miss Nellie Van Hoof of Racine, Mr. and Mrs. Henry Van Hoof, daughter, Alvina and son Henry of Wrightstown and Miss Marcella VanDyke of Menasha.

A farewell party was given on Sunday for Mr. and Mrs. William Huelsbeck at the home of Mr. and Mrs. Walter Huelsbeck, near Menasha. The guests of honor will leave soon for Milwaukee where they will spend a month at the home of their daughter, Mrs. Nicholas Grellinger before leaving for Cottageville, Fla., where they will spend the winter with their son, George Huelsbeck.

The guests included Mrs. George Huelsbeck and children, Cottageville, Fla.; Mr. and Mrs. Albert Huelsbeck and family, Mr. and Mrs. Walter Huelsbeck, Mr. and Mrs. Joseph Schiagel, Mr. and Mrs. Frank Bartlein, Mr. and Mrs. Leon Bartlein, Mr. and Mrs. Andrew Bartlein, Menasha; Mr. and Mrs. Arno Bartlein, Milwaukee; Mr. and Mrs. George Witz and daughter, Milwaukee; Mr. and Mrs. W. Kura and family, Milwaukee; Mr. and Mrs. Ehrlich and family, Mr. and Mrs. T. Arens, Appleton; Mr. and Mrs. H. J. Rosenou, Mr. and Mrs. Frank Fritsch and family.

Miss Ethel Durick, who is about to join the Order of Dominican Sisters, will be entertained at a farewell party Thursday evening by Miss Gladys Fountain and Miss Eleanor Halls at the home of the former. Miss Durick expects to leave in a few days for Sin-sinawa, headquarters of the Order.

Mrs. C. L. Marston entertained a number of friends at a luncheon at Riverview Country club on Wednesday. Following the luncheon, bridge was played.

Mrs. Thomas Byrne, 1038 Eighth-st., entertained, at 6 o'clock, a dinner at her home in honor of her niece, the Misses Catherine and Margaret McMahon of Fort Smith, Ark. Covers were laid for ten guests. The guests of honor, who have been visiting relatives in Neenah, left Thursday morning for Stevens Point where they will visit for a few days before returning to their home.

A Night in Japan will feature Ladies night at Waverly beach on Thursday. A Japanese song and dance act will be put on by four young women.

Mr. and Mrs. Kenneth Dickinson entertained friends at a dinner on Wednesday evening. The dinner was served at Riverview Country club and was followed by bridge.

## WEDDINGS

The wedding of Miss Lorraine Brill, daughter of Mr. and Mrs. E. J. Brill, 1291 Lawrence-st., to Frank Schrimpf, son of Mr. and Mrs. Charles Schrimpf, Sr., 651 Maple-st., took place at 8:30 Thursday morning at St. Joseph church. The Rev. Boniface performed the ceremony. The couple was attended by the twin sisters of the bridegroom, the Misses Anna and Elizabeth Schrimpf, Edward Brill and George Weinfurter.

After the ceremony a reception and dinner to more than 50 friends was held at the home of the bride's parents. Mr. and Mrs. Schrimpf will leave Saturday on a trip and will return to make their home at 698 Main-st.

The out of town guests included Mr. and Mrs. C. F. Fetter of Milwaukee and Linas Banks of New London.

## CHURCH SOCIETIES

"Missouri Synod" will be the topic of discussion at the educational meeting of Olive Branch society of Mount Olive Evangelical Lutheran church at 7:30 Friday evening. The speakers will be Miss Loretta Braemer and Miss Elsie Hoffman. A social hour also will be held.

WOMEN DELEGATES OFF TO LEGION CONVENTION

Delegates of the Women's auxiliary of the Grey Johnston post, American legion, left Appleton Thursday morning to attend the state convention of the American legion which is in session in Beloit from Thursday to Saturday.

Presentation and dedication of the department colors will form the opening exercises of the auxiliary convention. Mrs. G. W. Fisher, Fond du Lac, state chaplain will present the colors, which Mrs. Austin Peterson, Neillville, will accept, and Mrs. Frank F. Wilson, Eau Claire, department commander, will dedicate.

## Appoint Three Women On Fall Election Board

Miss Floret Zuehlke, Miss Cora Guenther and Mrs. Robert Scholl, who have been selected as members of the election board of the second precinct of the Third ward, will have the distinction of being the first women to serve on an election board in Appleton. They will make their first appearance as members of such board at the registration next Tuesday. The other members of the board are John Schults, Edward Kavanagh, George Merkel and Ray Meidam. The board will occupy a booth at the corner of Spencer and Outagamie-st., which is nearing completion.

## C. O. C. READY TO AID IN ROADWAY CONSTRUCTION

The celebration planned here for the opening of state trunk highway 15 was discussed by directors of the chamber of commerce at a special meeting Wednesday afternoon. The chamber is anxious to lend the local committee all possible cooperation in staging the event, but will wait until the arrangements are definite and then will offer its assistance.

A matter concerning solicitation of funds by an outside organization was talked over and referred to the endorsement committee.

## BEG PARDON

Considerable confusion has been caused by the description of the new election precincts in Appleton because of failure to state in the article that the center of the streets which divide the precincts is to be the dividing line. For example in the First ward all residents of the center line of Mendota-st. will be one precinct and all residents west of the center line of that street will be in another.

## Green Arrow Makes Great Change in Family Wash

By JANE LEE

The first time I learned there was water glass and other "fillers" in ordinary white and yellow laundry bars I was just as much surprised as though I had heard that there were false yolks in eggs. And yet, when I thought it over, I knew there must be some reason why it stuck to the clothes like paste. Haven't you often noticed that ordinary laundry soap does this very thing? Well, the fact is that it does contain paste for that is what water glass becomes when wet. It has no cleaning power and is put into laundry bars just to make a little soap appear like a full-sized bar.

We women have The Palmolive Co. to thank for giving the home GREEN ARROW—a new laundry bar that has no "filler" in it and that never gives us "laundry hands." I adore this bar, that makes it with olive oil—a new idea to us, but an old one to fabric experts, who always wash their new materials with olive oil soap. Haven't you wanted your clothes to be as white and soft after washing as they are when new? Well, that's exactly the results you will get from using GREEN ARROW—the same results that the makers of the fabrics themselves obtain.

You'll save many bars a month, too, because GREEN ARROW is all soap, thus all cleaning power. Naturally it goes nearly twice as far as a bar that is only a half soap and two-thirds filler.

I know a woman's prominent magazine that tested GREEN ARROW and reported: "One-third to one-half of what we ordinarily use in our suds test gives perfectly satisfactory results." Think of a laundry soap—for the common wash—so rich and pure it can be used on the most delicate fabrics without the least harm!

Yet that's another test the magazine's experts made with GREEN ARROW, just to prove how mild and pure it is.

adv.

You Can Always Get The "Good Things" You Want TO EAT—At SCHEIL BROS.

## WAS A BROKEN-DOWN WOMAN

Then I Began Taking Lydia E. Pinkham's Medicines

Donaldsonville, La.—"I write with pleasure to praise your medicine—Lydia E. Pinkham's Vegetable Compound—which has done so much to restore my health. I was a broken-down woman until my husband brought me a bottle of your Vegetable Compound and one of Lydia E. Pinkham's Blood Medicine. I had been having pains every month and at intervals between, was weak and seemed to be smothering at times, but in a week I felt like another woman. I also used Lydia E. Pinkham's Sanative Wash. It did me a lot of good too. I cannot praise your medicines too much and will be more than glad to recommend them to any woman who is suffering from female troubles. You may print my testimonial, as it is true."—Mrs. T. A. LANDRY, 612 Miss. St., Donaldsonville, La.

Note Mrs. Landry's words—"as it is true." Every letter recommending Lydia E. Pinkham's Vegetable Compound is genuine. It is a statement telling the merits of these medicines just as the women in your own neighborhood tell each other.

## SEVERAL HURT IN FIGHT AT DANCE

Several bruised heads resulted from a free-for-all fight in a dance hall in Apple Creek last Sunday night, according to meagre information that is obtainable. One man was taken to the hospital after the battle but was released the next morning.

According to reports a deputy sheriff assigned to the dance attempted to quell disorder and a real fight started. The officer is said to have used his club with telling effect and several men were hurt. Sheriff Schwartz has refused to discuss the incident, declaring they are frequent occurrences in the county. No arrests have been made.

## ADDS ANOTHER STORY TO HIS NEW BUILDING

W. H. Hackleman, who is erecting a new building on College-ave. immediately west of W. C. Fish's grocery store, the plans of which call for a one story building, decided Wednesday to make it a two story building and use the second floor for either office or flats. The walls were up to the second story when he decided to make the change.

## USE 3-BOOK SYSTEM TO KEEP POLICE RECORDS

Ease of reference is the object of a new police blotter arrangement which has been inaugurated at the police station by Chief George T. Prim. Three books are kept, one for thefts only, another exclusively for accidents, and a third with the general run of police records. Much less time will

## FRECKLES

Don't Hide Them With a Veil; Remove Them With Othine—Double Strength

This preparation for the treatment of freckles is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength Othine it is this that is sold on the money-back guarantee. adv.

be consumed in looking up past incidents this way, it is believed, as fewer items need be looked over.

## Kinney Comes to Town

Let us introduce ourselves. After we're here awhile we hope "History will Repeat" and others will beglad to do our introducing for us. But now we're here. We want you to know it, and you will be glad to know it after you have seen what we bring. The name is KINNEY—G. R. KINNEY CO., INC. World's Largest Shoe Retailers. We come from all over—our birthplace was Waverly, N. Y., over 25 years ago, in a little "two-by-four" shoe store. But today there are 100 big Kinney Shoe Stores and 4 big factories in these United States.

Only yesterday, it may seem, Appleton folks were buying shoes at the S. W. Enterline Co. store. Tomorrow those who buy there will buy from Kinney. The Enterline stores are now Kinney stores; and Kinney's, with larger buying power, and the advantage of manufacturing in their own factories, are able to give the best shoe values obtainable. Kinney Stores are known as the stores of better Quality, better Style, and better Variety at Lower Prices.

### A Family Shoe Store For Thrifty Buyers.

Shoes and Hosiery for all to take pride and comfort in at prices you'll take an interest in. And remember the Kinney Guarantee is a confidence-builder. We are never satisfied until you are.

## EIGHT FREE ACTS AT HORTONVILLE FAIR NEXT WEEK

Exhibition This Year Expected  
to Surpass All Others —  
Arrange Ball Game

Special to Post-Crescent  
Hortonville — Arrangements are complete for the biggest fair in the history of Outagamie County Agricultural association, which will be held here Wednesday, Thursday and Friday of the coming week.

Music this year will be furnished by the community band of 25 pieces and the musical programs will be an extensive part of the activities.

Eight big free acts are to be put on twice daily. There will be a baseball game at 2:30 Thursday afternoon between Appleton Interlakes and Hortonville County League and unusual interest in the contest therefore is expected.

Exhibits will be arranged on an extensive scale. An exhibit of swine display has been arranged by the Poland-China Breeders' association. Calves owned by members of the boys' and girls' club of Outagamie-co. also will be exhibited.

Indications are that there will be a record attendance of families of the county.

## JOINT W. C. T. U. MEETING IS HELD

Program Is Given at Methodist  
Church of Black Creek —  
Pastor Is Speaker

(Special to Post-Crescent)

Black Creek — The local Women's Christian Temperance union entertained members from Seymour, Shiocton, Ellington and Appleton at the Methodist church Friday afternoon, Aug. 18. About 50 were present.

The following program was given: Address of welcome—Mrs. Mina Hawthorne, president of local union. Prayer—Rev. G. W. Lester, pastor of M. E. church.

Scripture reading—Isabel Shauger, evangelistic superintendent of local union.

Response to address of welcome—Mrs. Cora Reese, county vice president.

Solo—Rev. G. W. Lester.

Reading—Mrs. Eberhard, president of Appleton union.

Reading—Mrs. Buffon, president of Shiocton union.

Address—Mrs. Eberhard, Appleton. Remarks—Miss Inez Gurnee, Appleton. Miss Flora Kethroe, Appleton. Mrs. Mina Hawthorne.

Address—Rev. G. W. Lester.

Three new members were taken into the local union. They were pledged and given the welcome by Mrs. Mina Hawthorne and the white ribbon pinned on by Mrs. Cora Reese. The visitors were then entertained at a luncheon in the church dining room.

**MEET SEPT. 1**

The regular monthly meeting of the Black Creek W. C. T. U. will be held at the home of Mrs. Margaret Dey, Friday evening Sept. 1.

Mr. and Mrs. William Magurn and daughters, Flossie and Ruth, of Green Bay were guests at the home of Mrs. Magurn's sister, Mrs. Dennis, Sunday.

The sewing machine prize contest conducted by a local furniture company closed Saturday night. First prize of \$15 was won by Lucile Walsh; second prize \$10 was a tie and was divided between Esther Roloff of Cicero and Walter Holtz of Black Creek. Third prize \$5 was won by Lawrence Dennis, Black Creek.

Miss Janet Eberhard returned Saturday from a week's visit in Shawano. Mrs. Herbert Brenner accompanied her home and visited her father, Marres Eberhard until Monday.

Miss Gladys Williams of New London was the guest of her sister, Mrs. C. J. Burdick, Thursday and Friday of last week.

Mr. and Mrs. Rufus Dey and Mrs. W. A. Tracer, who live at New London but who are camping at Waverly beach, visited Mr. Dey's parents, Mr. and Mrs. John Dey Friday of last week.

Archie Newman, who has been visiting at the Schinke home, returned to his home in Milwaukee Saturday.

**HONOR BIRTHDAY**

Mrs. Henry Hartsworn entertained a few friends Friday evening of last week in honor of Mr. Hartsworn's birthday anniversary. The evening was spent socially.

August Brandt and family of Appleton spent Sunday here.

Vernon Lane spent the weekend at Wild Rose.

George Deltz of Watoma, county superintendent of Waushara-co. schools, called on Mr. and Mrs. A. L. Burdick Sunday.

Martin Berner and Fred Zuehlke went to Marshfield Saturday.

Miss Lavola Cloos of Appleton was a guest at the home of her uncle, J. J. Huhn Saturday.

Mr. and Mrs. A. E. Carter and daughter Miss Andra of Rhinelander, are guests at the home of Mrs. J. N. Shauger.

Mrs. Gustave Maas entertained at 8 o'clock dinner Saturday in honor of the Rev. Mr. Woodman of Madison. Those present besides the Rev. Mr. Woodman were: Mr. and Mrs. Herbert Poppy, Miss Ethel Parfitt, Mr. and Mrs. Richard Sterns and family, Miss Myrtle Heiny, and Mr. Salisberry, all of New London.

Postmaster G. A. Braemer and family

Kaukauna Representative

## WANT SANATORIUM TO BE OPERATED BY 3 COUNTIES

Active Campaign Is Started to  
Make It a Tri-county  
Institution

Kaukauna — An active campaign is now under way to make Riverview sanatorium of Outagamie-co. a tri-county institution. The proposition has been before the Outagamie-co. board for two years and while members viewed it favorably no organized effort has ever been taken until lately to bring it about.

Shawano and Oconto are the counties under consideration. The board of trustees of Riverview sanatorium of which Dr. C. D. Boyd of this city is one of the original members, has engaged a representative of Wisconsin Tuberculosis society to interest the taxpayers of those two counties in the proposition and have it brought before their respective county boards at their annual meetings in November.

Each of these counties are said to pay more for the care of their tuberculosis patients than it would cost them under the proposed plan. In the event the plan is carried out the Outagamie-co. institution will be enlarged and facilities added for the care of a larger number of patients.

They are spending a week in Watertown.

Mrs. William Ruhsam and daughters Alice and Florence, and son Gerhard, of New London were callers at the R. H. Gehske home Monday.

Willard Meike and family spent Sunday in Appleton.

Miss Viola Gruenwaldt spent last week at Abrams and Green Bay.

The Misses Marge and Leona Sykes of Shiocton are guests at the Dr. Laird home.

The Misses Leone and Alice Rohm are visiting in Bear Creek.

Mr. and Mrs. H. V. Shauger, and Mr. and Mrs. Schultz and child of Ogdenburg were callers here Sunday.

**ON VACATION**

Miss Inez Vachon is taking a two weeks' vacation from the telephone office and will spend the time at Bear Creek, Manawa and Elderon.

The Misses Vert and Alfreda Zuehlke of Bonduel visited their sister, Mrs. F. S. Walsh Sunday.

Mr. and Mrs. John Buss entertained a few friends from Appleton Sunday. They were Mr. and Mrs. William Rohm, Mr. and Mrs. Peter Honick and Mr. and Mrs. Fred Ohm and daughter.

Mrs. Ernest Warner returned from Deaconess hospital Saturday.

Mr. and Mrs. Irvin Tesch and Lee Barth of Two Rivers spent Sunday at the H. A. Hoops home.

R. H. Gehrke and family attended a family reunion at New London Sunday.

Clifford Reed was a Neenah visitor Sunday.

Mr. and Mrs. N. O. Hippe and son Leonard visited Shiocton relatives, Sunday.

Mrs. Garland and sons of Ironwood, Mich., spent last week at the Louis Wehrman home.

Miss Frieda Weber of Milwaukee is spending the week at the home of her sister, Mrs. Otto Gregorine.

Mr. and Mrs. N. A. Shauger and daughter Gladys returned Sunday from a week's auto trip to the northern lakes.

**VISITS COUSIN**

Elmer Hall, secretary of state, called on his cousin, Mrs. Gustave Maas, Friday.

Saturday and Frieda Sassman returned Saturday from a few days' visit in Green Bay.

Mr. and Mrs. Robert Schneider were in Appleton Sunday to visit their daughter, Mrs. William Reetz, Jr.

Miss Gertrude Miller, who was called to her home at Twelve Corners by the accident that happened to her father, Fred Miller, returned to her work in Wagner's store Monday.

Mr. Miller, who was hurt four weeks ago, is still in the hospital at Appleton.

A large crowd attended the picnic at St. John church Sunday. The receipts were \$400.

Mr. and Mrs. A. W. Walsh of New York City, Mrs. Mattie Bumkile and daughter, Miss May Bumkile of Green Bay and Mrs. Mary Walsh of Manawa, spent a few days at the Dr. F. C. Walsh home.

Mr. and Mrs. F. J. Weisenberger autored to Bonduel, Oconto and Gillette Sunday.

Mr. and Mrs. Louis Kaffingst and son were Bonduel visitors Sunday.

**THREE OPERATIONS**

Kaukauna—Mrs. F. J. Balgie is in a hospital at Fond du Lac, where she submitted Saturday to three operations the most serious of which was for appendicitis. While her condition is critical everything is favorable for her recovery. Her husband, who was with her for several days, returned home Tuesday.

**SLATER RECOVERING**

Kaukauna—Frank Slater, master mechanic of the Northwestern Railway Co., who was injured by a fall from a locomotive two weeks ago, is able to be about. It will be several days, however, before he will return to work.

## FORMER KAUKAUNA YOUTH BADLY HURT

Rudolph Hinnenthal Is Struck  
by Train Near Madison

Kaukauna — Word was received here Wednesday of the critical condition of Rudolph Hinnenthal, formerly of Kaukauna, who was injured near Madison Tuesday in a collision between a motor truck he was driving and a train. His skull was fractured and he suffered other serious injuries.

Hinnenthal is a son of the Rev. Mr. Hinnenthal, for many years a resident of Kaukauna. He left here about five years ago and of late has been teaching school at Hartford, Wis. During his vacation he has been in the employ of a motor truck express company operating between Watertown and Madison.

The accident occurred at a grade crossing. Hinnenthal and his assistant, who also was injured, were taken to a hospital at Madison.

## SCHOOL MOVED TO NEUTRAL GROUNDS

Fifty Years of Fighting Over  
Building Ended Forever by  
Changed Location

Special to Post-Crescent

Oneida — James W. Cornelius has finished moving the joint district school house of Freedom and Oneida one mile north. It now stands in the center of the district. This is the school of the district fought over for fifty years.

The harvest picnic will be given at the immaculate Conception church next Sunday on the beautiful picnic grounds adjoining the church. The children's carnival will be a new feature. Dinner will be served on the grounds.

Bishop R. H. Weller of Fond du Lac will confirm a large class of children on Thursday at the Episcopal church.

An ice cream social was given at the Epworth hall Friday for the benefit of the Rev. Mr. Nuss of the Methodist church.

The Rev. Father Wagner was a caller at the Father Viessers residence Monday. They both left to attend the retreat at St. Norbert academy, De Pere, for a few days.

Herbert Sickles and family autored here from Pierre S. D., to spend their vacation with Mr. Sickles' mother, Mrs. A. S. Vose.

## KAUKAUNA PERSONALS

Kaukauna — Mr. and Mrs. C. J. Faust and Mr. and Mrs. Edward Ellis have returned from a five days' fishing trip at Post Lake.

Mrs. John Smyth, who has been visiting her brother, W. F. Woelz, for a week, has returned home to Marshall, Mich.

Postmaster Jacob Lang was in Green Bay on business Tuesday.

Dr. and Mrs. W. N. Nolan attended the McGrath-Peerenboom wedding at Appleton Wednesday.

Mrs. Jacob Lang and daughter, Miss Lucile Lang, were at Appleton Wednesday calling on friends.

H. T. Runte returned Wednesday from a business trip to Milwaukee.

Miss Nora Henningsen visited friends at Appleton Wednesday.

Mr. and Mrs. J. H. Niesen and children have taken their department on a ten days' automobile trip to Antigo, Boyd, Madison and Milwaukee.

T. H. Kramer of Chicago is spending the week with Kaukauna friends.

F. Metz, city assessor, has returned from a several weeks' visit at Beaver Dam.

O. E. Roberts, who was picking blackberries at Mountain, returned home Tuesday.

W. H. Gray was in Appleton on business Wednesday.

Miss Laura Harkes, who was a guest of Miss Odanah Hannemann, has returned home to Clintonville.

Mr. and Mrs. Otto A. Look and Miss Florence Potts were guests Wednesday of friends at Cedar Grove.

Roy Kuehn, who is engaged in contracting business at Rockford, Ill., visiting his mother, Mrs. Julius Kuehn early in the week.

H. G. Brauer's handsome new brick residence on Wisconsin-ave. is enclosed and carpenters are now at work on the interior. It contains eight rooms and will be ready for occupancy early this fall.

## MOVIE DEPICTS T. B. IN CATTLE

Special to Post-Crescent  
Darboy — Mr. and Mrs. Fred Silbey and Mr. and Mrs. John Siezert of Appleton spent Sunday with Mrs. Anton Koss, Sr.

A movie called "Out of the Shadows," featuring tuberculosis in cattle, was shown last Tuesday night at Graff hall, under auspices of Paul Nyhus of the First National bank of Appleton. Dr. Cass of Oshkosh, Dr. William Madison and Dr. O. N. Johnson of Appleton spoke on the disease.

Misses Marie Uttenbroek, Edna and Naomans, of Appleton called on friends here Sunday.

The local post of the American Legion held a special meeting on Friday evening Aug. 25.

Misses Cecelia Meehl of Chilton, Mr. and Mrs. Charles Besch and son Wayne of Appleton, Mrs. John Atkins and children Harold and Helen of Milwaukee, Miss Francis Besch of Mehl of Harrison Center were guests of Appleton and Mr. and Mrs. Mike at the family reunion at the home of Mr. and Mrs. Frank Meehl last Sunday.

The Leo Van Roy post of the American Legion will show a five reel war movie called "Flashes of Action" and two other pictures next Wednesday evening, Aug. 30 at 8:15 at Graff hall. The war picture is shown for the first time in Wisconsin here.

Mr. and Mrs. Anton Strohofer and children of Appleton were guests of Mr. and Mrs. Jerome Uttenbroek and family on Sunday.

A son was born to Mr. and Mrs. George J. Schwabach on Monday.

Benjamin Kortenhof submitted to a minor operation at St. Elizabeth hospital.

Jacob Koss purchased the residence and blacksmith shop of John Dietzen last week. Mr. Dietzen will remain at the shop.

Fred K. Behling is still sick.

The baseball benefit dance held Monday night with Horst Imperial players at Graff hall was attended by a large crowd.

## RECORD BREAKING STILL CAPTURED

Sheriff and Aides Take 1,150  
Gallon Outfit in Raid on  
Old Farmhouse

Racine, Wis.—All records for moonshine raids in Wisconsin were broken here on Wednesday, when Sheriff Nate James and five deputies seized 1,150 gallons of the beverage in an abandoned house on the Duffy farm, Howell road, west of the city.

Frank Lewandowski and Pete Toronowski, who were arrested in the raid, said they had been operating since early this year, and that the bulk of their product has been sold to Milwaukee customers. Two loaded shotguns were seized by the raiders, the sheriff said.

The deserted house had been under suspicion for more than a month, since Mrs. James detected the odor of moonshine while passing the place in an automobile.

In addition to the moonshine which was contained in twenty-three fifty gallon barrels, the raiders took four stills, with a combined capacity of 100 gallons, which were in operation, the sheriff said. The place was described as well equipped for the manufacture of moonshine on a large scale.

A third man, who is declared by the sheriff to have been involved with the two men arrested on Wednesday, escaped the raiders, although plans had been carefully laid by the sheriff and his men in an effort to secure complete evidence.

**KAUKAUNA PERSONALS**

Kaukauna — Mr. and Mrs. C. J. Faust and Mr. and Mrs. Edward Ellis have returned from a five days' fishing trip at Post Lake.

Mrs. John Smyth, who has been visiting her brother, W. F. Woelz, for a week, has returned home to Marshall, Mich.

Postmaster Jacob Lang was in Green Bay on business Tuesday.

Dr. and Mrs. W. N. Nolan attended the McGrath-Peerenboom wedding at Appleton Wednesday.

Mrs. Jacob Lang and daughter, Miss Lucile Lang, were at Appleton Wednesday calling on friends.

H. T. Runte returned Wednesday from a business trip to Milwaukee.

Miss Nora Henningsen visited friends at Appleton Wednesday.

Mr. and Mrs. J. H. Niesen and children have taken their department on a ten days' automobile trip to Antigo, Boyd, Madison and Milwaukee.

## FARMER "TRUSTS" HEADED FOR ROCKS

Madison—Attempts on the part of farmers to create monopolies as a means of price control are bound to prove ruinous because of the impossibility of controlling agricultural production with the same efficiency that it can be controlled in other industries.

Edward Nordman, commissioner of markets, said in a statement issued by him today.

"It is the continual shifting from the growing of one crop to the growing of another when prices are more favorable in the one than in the other that destroys any possibility of a farmers' monopoly," Mr. Nordman said.

Instead of attempting to monopolize their industry, farmers should work to break up monopolies of natural resources of credit and of transportation as the means of assuring themselves of a rightful share of the wealth they help to create, the commissioner advised.

In speaking of cooperative enterprises, he said that their rapid growth heralds the coming of the time when marketing will be conducted in an orderly manner without waste and unnecessary expense. Cooperation, however, Mr. Nordman cautioned, must be undertaken with care and caution by farmers in order to avoid the pitfalls which conceal dangers.

**Social Items**

Kaukauna—Eugene Homan of this city and Mrs. George Dawson of Brill held a joint celebration at their cottages at Utowana beach at Lake Winnebago Tuesday evening in honor of their birthday anniversary.

Supper was served at 7:30 and was followed by a musical program. Twenty-one guests were present.

The Brokaw Memorial Methodist church and Sunday school will give its first annual excursion to Neenah park Tuesday, Aug. 29. The Valley Queen has been chartered for the occasion and will leave here at 8 a. m. and return at 7 p. m. Music and games will be provided.

The Catholic Order of Foresters and the Woman's Catholic Order of Foresters will give a joint annual picnic at Kaukauna Gun club park next Sunday afternoon and evening. The program will include a baseball game and games and contests of all kinds.

**RUSSIA BROKE; CAN'T  
PAY FOR LOCOMOTIVES**

Stockholm—After having ordered 1,000 locomotives for an engineering firm here and having received 300 of them, the Russian government has intimated that it is now unable to pay.

When the contract was made it was agreed that the engines were to be paid for as they were delivered, and the manufacturers obtained a guarantee for their money.

**KAUKAUNA PERSONALS**

Kaukauna — Mr. and Mrs. C. J. Faust and Mr. and Mrs. Edward Ellis have returned from a five days' fishing trip at Post Lake.

Mrs. John Smyth, who has been visiting her brother, W. F. Woelz, for a week, has returned home to Marshall, Mich.

Postmaster Jacob Lang was in Green Bay on business Tuesday.

Dr. and Mrs. W. N. Nolan attended the McGrath-Peerenboom wedding at Appleton Wednesday.

Mrs. Jacob Lang and daughter, Miss Lucile Lang, were at Appleton Wednesday calling on friends.

H. T. Runte returned Wednesday from a business trip to Milwaukee.

Miss Nora Henningsen visited friends at Appleton Wednesday.

Mr. and Mrs. J. H. Niesen and children have taken their department on a ten days' automobile trip to Antigo, Boyd, Madison and Milwaukee.

T. H. Kramer of Chicago is spending the week with Kaukauna friends.

F. Metz, city assessor, has returned from a several weeks' visit at Beaver Dam.

O. E. Roberts, who was picking blackberries at Mountain, returned home Tuesday.

W. H. Gray was in Appleton on business Wednesday.

Miss Laura Harkes, who was a guest of Miss Odanah Hannemann, has returned home to Clintonville.

Mr. and Mrs. Otto A. Look and Miss Florence Potts were guests Wednesday of friends at Cedar Grove.

Roy Kuehn, who is engaged in contracting business at Rockford, Ill., visiting his mother, Mrs. Julius Kuehn early in the week.

H. G. Brauer's handsome new brick residence on Wisconsin-ave. is enclosed and carpenters are now at work on the interior. It contains eight rooms and will be ready for occupancy early this fall.

## Another Goodyear Masterpiece

Like the All-Weather Tread Cord which leads in quality and value, the new Cross-Rib Cord perfected by Goodyear embodies features which make it another Masterpiece giving to the public again the greatest value in its price class.

This new Cross-Rib Cord has a long-wearing semi-flat tread—with the tread rubber extending from bead to bead.

The carcass is made of long staple Arizona and Egyptian cotton built on the exclusive Goodyear "Group-Ply" principle.

The Cross-Rib Cord is cured on air—reducing to a minimum chances of hidden defects.

We have these new tires in all popular sizes at these prices which are unusually low for a standard recognized brand.

**Prices of the New Cross-Rib Cords**

30x3½ Clincher ..... \$12.50

32x3½ Straight Side ..... 19.25

32x4 " " ..... 24.50

LITTLE ALLIANCE  
IN BALKAN STATES  
IS PEACE AGENT

Cessation of Quarreling Would  
Bring Great Prosperity  
To Balkans

By Associated Press  
Belgrade, Yugoslavia—If peace can be maintained among the various countries of the Balkans they are destined to become, with gradual development of their promising natural resources, a most important factor to Americans who have lived here and engaged in business since the war.  
The most potent influence at present to maintain peace is the "Little Alliance," established by the help of the French at the conclusion of the general war. This at present is an intangible understanding between Czechoslovakia, Rumania and Yugoslavia, countries which have never had conflicting national interests of serious importance. Greece and Bulgaria, if not Austria, may eventually be drawn into this understanding. One object of the alliance, if it can be so called, is to block German influence, another is to settle quarrels and eventually to arrange practical customs and trading agreements similar to those in effect when much of this territory was under the Austrian Empire.  
When one considers the expressions of hatred daily indulged in by the Greeks and Serbs against the Bulgars, it would not appear probable that any reasonable termination of this hatred could be found. Yet it is the theory of Minister of Interior Manastirski of Yugoslavia, that a permanent peace between the Serbs, chief of the Yugoslav union, with Bulgaria is logical. He maintains that they should try to go back to their original union, which had for its purpose the defeat of the Turks. This, he says, is the secret of peace in the Balkans.

PREMIER OUTLINES  
BULGARIAN FUTURE  
AS PEOPLE'S RULE

Declares Day of Tyrants is  
Gone and People Should  
and Will Govern

Sofia, Bulgaria—"The people of Bulgaria do all the work, and therefore they should have the dominant voice in its government," Premier Alexander Stamboulisky said today to the correspondent of the Associated Press who questioned him as to Bulgaria's future. The occasion followed the recent Plovdiv congress, when Stamboulisky warned King Boris he could reign but not govern, and that if the intellectuals secured control of the government a republic would be declared.  
"The present tendency of the world," continued the leader of the Agrarian Party, "is toward democracy and rule by the people as you have it in America. Old Bulgaria with its tyrants and oppressors is dead. The people now rule. It may be that Bulgaria one day will have a republic, and if so we shall make King Boris its first President. He is a very democratic, modest and earnest young man, and I think he would like the job. He is held in great affection and esteem by the people and would have their entire support."  
Stamboulisky is a man of massive frame and tremendous energy. He has a large round face, ruddy complexion, an upturned mustache, a great shock of uncombed, curly black hair, and small dark eyes that expand only when his sensibilities are aroused. His critics say that in his formidable physique and thundering voice lies his strength rather than in his brain. However, he must have a great fund of native commonsense, practical wisdom and unusual constructive ability, for he has guided his country for three years through the most precarious period in its history.

BLACKSNAKES ARE  
HELP TO GOLFERS  
IN FIGHTING MOLE

Coatesville Country Club Tries  
To Lure Reptiles To Live  
Near Links

Coatesville, Pa.—Blacksnakes seeking a comfortable home, rent and tax free are invited to the golf links of the Coatesville Country Club. Along the sides of the course underbrush has been permitted to grow thick, and tempting rock piles with full southern exposures have been placed to lure the snakes from adjacent lands.  
An educational campaign has been inaugurated among golfers with an aversion to molekilling in order that there may be no repetition of the deaths by violence which came to two of the organization's pets.  
Champions of the blacksnake declare that it is the most efficient natural enemy of the ground mole, which admittedly is the natural enemy of the golf greens. Not only does the snake go right into the mole's borings and discourage that animal's operations, but it is alleged to kill off rattlers and copperheads. It is harmless to mankind and is unlikely to appear suddenly to do concert a player about to putt, for it works at night.

EVERETT TRUE By CONDO

VIRGIN ISLAND  
CHILDREN TO GET  
COURSES IN MUSIC

Bandmaster Adams of Naval  
Band, Has Planned Course  
of Instruction

Charlotte Amalia, Virgin Islands—Instructions in music is to be introduced into the public schools of the Virgin Islands under the supervision of Bandmaster Alton A. Adams, of the Naval Band.  
Bandmaster Adams has returned to Saint Thomas after two months in the United States during which time he studied American methods of musical instruction in the public schools. From the knowledge gained he will adapt a course of instruction for the Virgin Island schools. It is his plan to develop bands in the graded schools and an orchestra in the high schools, while all school children will be given vocal instruction.  
Virgin Islanders have a natural talent for music, according to Bandmaster Adams. This has been recognized by the local chapter of the American Red Cross, which has been helpful in providing band and orchestra instruments for use in the schools.  
Bandmaster Adams, a native of Virgin Islands, is a recognized authority on band music and also a composer. Recently while in Washington, he visited the Marine Band and on his arrival found Bandmaster Santel-

mann rehearsing one of his compositions. Bandmaster Adams is undertaking his work as supervisor of music in the public schools under a special commission from Rear Admiral Kettle, Naval Governor.

Leases Residence  
A. J. Hall, superintendent of Appleton waterworks, has leased the former Carl Keller residence on State-st. from Rufus Lowell. He is planning to occupy it at once.

CHOCOLATE CANDY  
IS POPULAR WITH  
GERMAN PEOPLE

Ever Since World War "Iron  
Ration" Is In Great De-  
mand With Germans

Berlin — Chocolate candy, the wartime "iron ration" of armies, has become increasingly popular since the war among the laboring people of Germany despite the hand-to-mouth existence in which they are forced to live because of low wages and high prices. The workers here are said to have now usurped the pre-war position occupied by the middle classes as the greatest consumers of this "luxury."  
Simultaneously with comment in the press on this anomaly in the workingman's budget, figures are announced which show that the German laborer today is receiving wages barely sufficient to keep him and his family in the necessities of life.  
Clara Eohn-Schuch, Socialist member of the Reichstag, reporting in Vorwaerts the results of an inquiry into workers' living conditions, declares higher wages are necessary and that the present state of affairs is due to the practice of users in agriculture, industry, and trade.  
Interviewing an industrialist, she writes she was told that diligent work in his establishment received "good" wages at about 1,150 marks a week, equal to about \$4.00 in American money. She sought out a mechanic and found that was the exact amount of his stipend, and that he supported a wife and child on it.  
She cites also the case of a barber's family of five, including three children between 10 and 15 years of age, which lived on the man's salary of 1,000 marks a week. In a third family of four, the budget was based on earnings of 3,800 marks a month.

KING OF EGYPT TO  
VISIT AMERICA AND  
EUROPE THIS YEAR

Will Acquaint Himself With  
New World Movements To  
Benefit His People

Cairo—King Fuad I of Egypt intends to visit the United States as well as Europe in his tour this year, in order to acquaint himself with the new movements of the world and so be better qualified to govern his people wisely.  
This project, coupled with the official announcement that the governments of Spain, France, Germany, Italy and Persia have informed Egypt that they have raised their diplomatic agencies and consulates general in Cairo to legations, has brought closer to the Egyptian people the fact that Egypt has at last attained her true independence.  
It is rumored that the commission entrusted with the drawing of the new constitution for the country has decided that the National Assembly, which is to be elected soon, should consist of two bodies, a Chamber of Deputies and a Senate. The members of the former are to be elected by popular vote, while members of the latter are to be confined to princes of the royal family, ex-premiers, ministers, high spiritual chiefs and leading notables of whom 50 are to be elected and 30 nominated.  
The commission will provide for the creation of a supreme court modeled after that of the United States, with power to pass on the constitutionality of the laws of the land.  
The king is to have nominal powers only, the real power being vested in the Council of Ministers which would be responsible to the National Assembly.

RUSS ORTHODOX  
CHURCH IN CLASH  
WITH SOVIETS

Soviet Regime Requisitions  
Treasures to Relieve Fam-  
ine Stricken People

Moscow — The great Russian Orthodox church, which for centuries was probably the most important social factor and one of the most important politically in Russian life, seems to have gone to pieces itself, rather than to have had any effect upon the Bolshevik government, in its first direct conflict with the Soviet regime.  
Whatever may have been the underlying purpose of the Communist government in directing the requisition of church treasures for relief of the famine sufferers, the requisition itself has succeeded in splitting the church. Scores of priests are under arrest and revolutionary tribunals throughout the country are trying them for counter-revolution or theft and secretion of church valuables without any particular resentment on the part of the parishioners. Patriarch Tikon, the head of the church, abdicated when faced with trial by the civil courts on the charge of opposing the requisition. One of the men he suggested as his possible successor, the Metropolitan Benjamin, of Petrograd, is also to be put on trial, and in the meantime the control of church affairs has been turned over to a group known popularly as the "red clergy."  
This group, pledged to simplify the church services and to work in harmony with the Bolshevik government already has taken over a number of churches. It is headed by Bishop Antonin, of Moscow, who early in the

conflict that developed over the requisition of treasures, volunteered to assist the Soviet government. Now Antonin is planning to secure close cooperation between church and state by appointment in the Russian cabinet of a commissar for church affairs.  
IMPOSE DEATH SENTENCES  
The actual value of church treasures of Russia probably was several hundred million dollars, but the requisitioners obtained but a small proportion of this amount. They secured tons of silver, much gold, and thousands of precious stones, but for every diamond studded mitre the requisitioners found one or two similar articles listed as stolen or missing. For the theft of these, and for open agitation against requisition there is scarcely a province in Russia where churchmen have not been arrested. In addition to the eight priests, one woman and two laymen sentenced to death at Moscow, and the four sen-

tenced at Shuya, other death sentences are being imposed. Except at Shuya, however, none has been carried out, and it is generally believed in Moscow that most of those convicted will be pardoned or receive reduced sentences. General Brusiloff, one of the heroes of Russian war against Germany and Austria, has interceded for his daughter-in-law Mrs. Barbara Ivanova Brusiloff, the woman sentenced to death in the Moscow trial. Old residents of Moscow have too the correspondent that the arrests of the clergy were not resented because Russians ordinarily had very little respect for the priests. They were devout in their church worship but regarded the clergy, particularly in the villages, as men who charged them for all the services the church rendered, making them pay for births, marriages and deaths.

# MILL CONDITIONS IN CHINA BAFLE ALL DESCRIPTION

Orient Will Be Next Battle-ground Between Capital and Labor

**BY HORTENSE SAUNDERS**  
Special to The Post-Crescent  
New York—China, old in civilization and young in industry, may prove to be the scene of the world's greatest struggle between Capital and Labor.

This is the opinion of Margaret Burton of the National Board of the Y. W. C. A., who went to China last August with the John D. Rockefeller party and remained to inspect industrial conditions.

Having recently returned, she gives the following statement regarding conditions there:

"China, beginning her industrial history on the basis of valuing machinery more highly than life. The factory system is built on the bad foundations of child labor, long hours, inadequate wages and working conditions that are a menace to life.

"At the present time every factory is a law unto itself. There is no such thing as industrial legislation.

"Each factory may decide for itself what wages it will pay, what hours of work it will demand, under what conditions the workers work, what days of rest it will grant, what protection from machinery it will provide, and what the age limit of its workers will be.

**CHILD WORKERS**

"It is impossible to estimate how many factory workers there are in China, but of the 300,000 workers in the Yangtze district, 75 per cent are women and children.

"Little children toil for 12 and 13 hours daily at the most exhausting labor.

**HUMAN LIFE CHEAP**

"Accident wards of the hospitals and crippled children tell the pathetic story of the lack of safety appliances and the cheapness of human life.

"In one small hospital I saw three children under 10 years of age, who had been hideously mutilated from lack of safety appliances.

"Most of the accidents happen on the night shifts between two and three in the morning. By that time, those immature fingers are numb and those overtaxed bodies are ready to drop. Little heads droop with exhaustion and nature rebels. But the unguarded machines work on.

"One factory whose profits exceed \$1,000,000 annually, has been running night and day for two years with scarcely any intermission.

## MINERS AND OPERATORS FIRM IN THEIR DEMANDS

(Continued From Page 1)

fuel administrator, from Washington, the governor made a statement criticizing the federal fuel administration. When he was informed by Mr. Potter that the advisory board of the federal administration is composed of coal operators, the governor declared:

"It is a strange state of affairs when an advisory board, composed of operators is allowed to question the credit of the state of Michigan." He referred to the action of the board in turning down the state's guarantee of \$1,000,000 for priority coal and insisting upon cash deposits in the bank.

## PREPARE FOR WORK

Kansas City, Mo.—The cleaning up of some 290 coal mines, idle since April 1, preparatory to resumption of operation, got under way Thursday morning in the Missouri-Kansas-Oklahoma and Arkansas coal fields. Whistles at the mines blew Thursday morning following the settlement here late Wednesday by scales' committees of the Southwest Interstate Coal Operators' association, and the United Mine Workers of America. It is prophesied by George L. Peck, provision president of the Kansas miners, and a member of the miners' committee that coal will be loaded in cars by next Monday.

## WORK IN PENNSYLVANIA

Altoona, Pa.—Union leaders Thursday were notifying their 45,000 miners in the central Pennsylvania field to return immediately to the posts they left five months ago while operators were rushing plans that will mean production of 30,000,000 tons of coal a year. This activity followed the signing of an agreement Wednesday night.

## KEEP ON SWATTING FLIES, HEALTH OFFICER WARNS

This is the season of the year when flies are most numerous and if housekeepers relax in their vigilance they will help them to multiply, is the reminder given by Dr. W. C. Felton, health officer.

Residents should not only "swat" the flies but should take extreme care to keep their property clear of all garbage which serves as a breeding place for them.

This season has been very favorable for scarcity of flies in Appleton, Dr. Felton said. This is encouraging and indicates that people are using more care in keeping the city and their homes clean and free of disease, he said.

## MOVES BUILDING TO MAKE ROOM FOR NEW HOUSES

P. A. Kornely, who purchased the former children's home property at the corner of Story and Fifth-ats. several months ago, is moving the building to Fifth-st. and a little to the east of its former location in the center of a section of the block, where it will be placed on a new foundation and converted into three modern flats. This will make it possible for the owner to erect three new houses on the property, which he is planning to do either this fall or next spring.

## IRISH CHAOS EXPECTED TO EFFECT U. S. POLICY

(Continued From Page 1)

are being made to the drift of events in Europe but so far as the exercise of American influence is concerned, not a word is coming from the white house while Mr. Hughes, leaves in a day or two on a voyage to Brazil to attend the exposition there.

## HAS DOMESTIC TROUBLES

Domestic problems are naturally more acute but the attitude of the president is one of watchful worrying. If there was one strike which the president thought could be settled quickly and satisfactorily it was the anthracite controversy. Mr. Harding has felt that the miners and operators really did not want to disagree but that the influence of the national miners' union was responsible as it was presumably desired to have a stronger leverage on the operators in the soft coal fields by tying up all coal production. The insistence of the anthracite owners on arbitration has halted the negotiations for the time being, and the white house is keenly disappointed.

Meanwhile a psychological factor has been thrust into the whole industrial situation which may complicate rather than clarify it. The sudden announcement of the United States Steel corporation of an increase of 20 per cent in wages comes at a time when the shopmen are arguing that they have not been awarded a living wage by the United States Railroad Labor board's last decision.

In connection with the rise in wages in the steel mills, the increase in wages of non-union miners given by the companies in Pennsylvania who supply the steel industry was regarded also as an economic necessity rather than an attempt to break up unionism through the temptations of a higher wage scale.

## BEGIN ISSUING LICENSES FOR FALL HUNTING

Herman J. Kampe, county clerk, has started issuing hunting licenses preparatory to the wild duck and goose hunting season. The season for hunting wild goose, brant, wild duck, plover, snipe, rail, rice hen and mud hen opens Sept. 18. The seasons close Dec. 20 except in the case of wild goose which closes Dec. 31. The bag limit for these is 8 a day and for the other fowl it is 15 a day.

## Begin Pouring Concrete

Koopke Bros. Construction Co. which was recently awarded the contract for five miles of concrete pavement between Theresa and Mayville on trunk line 26, commenced pouring concrete Thursday. As the grading is completed no trouble is anticipated in getting cement. Under favorable conditions the work will be finished in six weeks.

## DEATHS

**KENNETH THIEL**  
Mr. and Mrs. Henry Bastjan received word Thursday morning of the death of their grandson, Kenneth Thiel, 7, at his home in Wausau early Thursday morning. The telegram did not state the cause of the death. The body will be taken to the home of the boy's grandparents, Mr. and Mrs. Claude Thiel, 335 Appleton-st. on Friday and the funeral services will be held on Saturday afternoon.

The boy is survived by his parents, Mr. and Mrs. Henry Thiel and five brothers of Wausau.

## 400,000 CARS IN STATE BY JANUARY

Madison—That by the end of the year there will be one car to every six people of Wisconsin, is the statement of Frank A. Cannon, secretary of the Wisconsin Good Roads association.

"We will have 400,000 motor vehicles licensed in Wisconsin by the end of the year," said Mr. Cannon. "The population of Wisconsin as shown by the last census was in round numbers 2,600,000. This means that at the end of this year every six people will have approximately one car. Seventeen years ago, when we first began to license automobiles, there was one car to every 1,600 people.

"The peak point was the year 1914, which showed an increase of 49 per cent over 1913. There was a sharp drop in 1918, due to the war, the increase over the preceding years being 18 per cent. In 1920 it rose to 24 per cent, in the days of our peak prosperity, and fell off last year to 16.4 per cent. This year it will be less than that, the estimate being 12.8 per cent.

"Note that in 1905 there were 1,492 motor vehicles registered. In 1922, at the end of this year, there will have been registered approximately 400,000. This means an increase of 26,000 per cent. If any one in the year 1905 had predicted an increase of this amount it would be regarded as raising the presumption that he was not of sound mind.

"Then years is not a long period in the life of man, and yet ten years, in 1912, only 27,734 motor vehicles were licensed, the increase in the 10-year period being 1,315 per cent.

## 38 VESSELS COMPETE IN REGATTA FOR CAT BOATS

By Associated Press

Lake Geneva, Wis. — Rokniben, owned by Porter Brothers, of Lake Geneva, won the six miles cat-boat race over a triangular course in the first race of today's program of the Inland Lake Yachting Association. The time 53:04 was the best thus far made by cat boats in this year's regatta. Thirty-eight boats completed. Gadget, owned by Mogg Brothers, Lake Geneva, was second; Caroline, entered by Gard Stevens, Lake Geneva, third, and Snet, owned by L. Snet-kamp, was fourth.

## PRESIDENT WILL NOT PRESS SHIP BILL NOW

Washington — President Harding will not press for immediate consideration by congress of the administration ship subsidy bill believing that it would be better to postpone action until "we can rivet the attention of congress with a full attendance," rather than "jeopardize its success" by consideration under the present circumstances. "The president's position was set forth in a letter Wednesday to Representative Mondell, the Republican leader, who had written the executive that he and his associates were reluctant to bring the bill to a vote in the house at this time.

## BILL HALTS BEE IMPORT

Washington—The senate passed and sent to the president the house bill prohibiting importation of adult honey bees. The measure is designed to check what it is feared by department of agriculture experts may develop into a virtually a worldwide plague known as the Isle of Wight disease.

## GOOD OPPORTUNITY FOR STUDENTS OF SPANISH LANGUAGE

Many Collegians Have Enrolled for Summer Course in Spanish

By Associated Press

San Juan, P. R.—Students from ten or more colleges of the United States have enrolled for the special Spanish course at the University Summer School at Rio Piedras, and Miss Josephine Holt, in charge of the school, is more than pleased with the fact that students have been attracted from such a wide territory. Massachusetts, Connecticut, Virginia, New York, Alabama, Illinois, Florida, Pennsylvania, Kentucky, North Carolina and the District of Columbia, are so far represented in the school, which opened on Monday.

## CULTURAL VALUE

"Spanish can no longer be considered a commercial or bread-and-butter language, but is being studied purely for its cultural qualities," said Miss Holt. "One of the outstanding features of the course is that the students attracted by it are interested in the broader study of the language and its cultural value, and not in acquiring it for purely commercial purposes. None of the lectures are on commercial subjects."

Some of the best equipped Spanish students and scholars among the public men of Porto Rico are to give special lectures during the course, in addition to the intensive routine study. When the Spanish course is finished

Miss Holt will return to her work as supervisor of foreign language instruction in the public schools of Richmond, Va.

## GOOD OPPORTUNITIES

"Porto Rico offers all the opportunities of Spain for the study of Spanish, besides having the advantage of being American territory," said Miss Holt. "Teachers and others desiring to acquire a working knowledge of Spanish can study much more cheaply here than in Spain."

The regular normal summer course for teachers, which is also being held at the university, has attracted far more pupils than can be accommodated and more than one thousand students are refused admittance because of lack of facilities to care for them. Originally a limit of \$60 was fixed for enrollment, but this has been exceeded.

## PINNED BESIDE CORPSE UNDER CAR FOR 9 HOURS

Bloomington, Ill.—With the dead body of his friend, Terry Alvra, beside him, Albert Golden of Belleflower, Ill., spent nine hours pinning himself from the auto which pinned him to the ground, after the car turned over near Sabina, Ill. The two were en route home, when at 8 o'clock last night they struck sand and the car plunged into a ditch. Alvra, who was driving, was instantly killed. Golden was but slightly hurt, screamed for help, but there was no one near. By digging the earth away with his hands he was free at 5 this morning, and obtained aid at a farm house.

## AGED WOMAN DIES

Wausau—Mrs. Medina Verbruyck, 89, one of the oldest residents in this county, is dead. Mrs. Verbruyck has lived in this county since 1860.

## MELLONS, CANTALOUPE ARE SCARCE AND HIGH

Chicago—The watermelon season is virtually over and with supplies of cantaloupe and watermelons dwindling prices have risen, the weekly review of fruit and vegetables of the

United States bureau of agriculture economics disclosed Thursday. Shipments of lettuce, peaches and potatoes also decreased. Cantaloupes were reported scarce, and high. California salmon tins advanced to from \$4 to \$5 a crate at New York and Boston markets and ranged from \$3 to \$3.50 in other markets.

**VETERAN CARRIER HELD**  
Chicago, Ill.—William Cunningham, 53 years old, a mail carrier for 28 years was arrested on a charge of stealing from the mails. Cunningham was declared by postal officials to have admitted various thefts in the past nine months but offered no explanation. He was held to the federal grand jury in bonds of \$2,500.

# The RED HOUSE MYSTERY

by AAMILNE

(Continued From Our Last Issue)

"Cayley asked us to bring a letter along," Bill explained to Betty Calladine. "Here you are."

"You will tell him, won't you, how dreadfully sorry I am about—about what has happened? It seems so hopeless to say anything; so hopeless even to believe it. If it is true what we've heard."

Bill repeated the outline of the events of yesterday.

"Yes... And Mr. Ahlett hasn't been found yet?"

"No."

She shook her head in distress. "It still seems to have happened to somebody else; somebody we didn't know at all."

"Then, with a sudden grave smile which included both of them, 'But you must come and have some tea.'"

"It's awfully decent of you," said Bill awkwardly, "but we—"

"You will, won't you?" she said to Antony.

"Thank you very much."

Mrs. Norbury was delighted to see them, as she always was to see any man in her house who came up to the necessary standard of eligibility.

When her life was completed, and summed up in those beautiful words: "A marriage has been arranged, and will shortly take place, between Angela, daughter of the late John Norbury..." then she would utter a grateful Nunc dimittis and depart in peace to a better world, if Heaven insisted, but preferably to her new son-in-law's more dignified establishment.

But it was not as "eligibles" that the visitors from the Red House were received with such eagerness today, and even if her special smile for "possibles" was there, it was instinctive rather than seasoned. All that she wanted at this moment was news—news of Mark. For she was bringing it off at last, and, if the engagement columns of the "Morning Post" were proceeded, as in the case of its obituary columns, by a premonitory bulletin, the announcement of yesterday would have cried triumphantly to the world, or to such a part of the world as mattered: "A marriage has very nearly been arranged (by Mrs. Norbury), and will certainly take place between Angela, only daughter of the late John Norbury, and Mark Ahlett of the Red House."

The girl was often amused by her mother's way. She sometimes shamed of them, sometimes distressed by them. The Mark Ahlett affair had seemed to her particularly distressing, for Mark was so obviously a league with her mother against her. It was a pleasure to turn to Cayley, that hopeless ineligible.

But alas! Cayley had misunderstood her. She could not imagine Cayley in love—until she saw it, and tried too late, to stop it. That was four days ago. She had not seen him since, and now here was this letter. She dreaded opening it.

She felt that at least she had an excuse for not doing so while her guests were in the house.

Mrs. Norbury recognized at once that Antony was likely to be the more sympathetic listener; and when tea was over, and Bill and Angela had been dispatched to the garden, dear Mr. Gillingham found himself on the sofa beside her, listening to many things which were of even greater interest to him than she could possibly have hoped.

"It is terrible, terrible," she said. "And to suggest that dear Mr. Ahlett—"

Antony made suitable noises.

"You've seen Mr. Ahlett for yourself. A kinder, more warmhearted man—"

Antony explained that he had not seen Mr. Ahlett.

"Of course, yes, I was forgetting. But, believe me, Mr. Gillingham, you can trust a woman's intuition in these matters."

Antony said that he was sure of this.

"Think of my feelings as a mother."

Antony was thinking of Miss Norbury's feelings as a daughter, and wondering if she guessed that her affairs were now being discussed with a stranger. Mark engaged, or about to be engaged? Had that any bearing on the events of yesterday? What, for instance, would Mrs. Norbury have thought of brother Robert that family skeleton? Was this another reason for wanting brother Robert out of the way?

"I never liked him, never!"

"Never liked—?" said Antony, bewildered.

"That cousin of his—Mr. Cayley."

"How did Miss Norbury get on with him?" Antony asked cautiously.

"There was nothing in that at all," said Miss Norbury's mother emphatically. "Nothing. I would say so to anybody."

"O, I beg your pardon, I never meant—"

"Nothing. I can say that for dear Angela, with perfect confidence. Whether he made advances—" She broke off with a shrug of her plump shoulders.

Antony waited eagerly.

"Naturally they met. Possibly he might have—I don't know. But my duty as a mother was clear, Mr. Gillingham."

"Exactly, Mr. Gillingham. I had my duty as a mother."

"There must have been a certain awkwardness about the next meeting," suggested Antony.

"Naturally, he has not been here since. No doubt they would have been bound to meet up at the Red House sooner or later."

"Oh, this was only quite lately?"

"Last week, Mr. Gillingham. I spoke just in time."

"Ah!" said Antony, under his breath. He had been waiting for it. He would have liked now to have gone away, so that he might have thought over the new situation by himself. But Mrs. Norbury was still talking.

"Girls are so foolish, Mr. Gillingham," she was saying. "It is fortunate that they have mothers to guide them. It was obvious to me from the beginning that dear Mr. Ahlett was just the husband for my little girl. You never knew him?"

Antony said again that he had not seen Mr. Ahlett.

"Such a gentleman. So nice-looking, in his artistic way. A regular Velasquez—I should say Van Dyck. Angela would have it that she could never marry a man with a beard. As if that mattered, when—"

She broke off, and Antony finished her sentence for her.

"The Red House is certainly charming," he said.

"Charming. Quite charming."

She gave a deep sigh. Antony was about to snatch the opportunity of leaving, when Mrs. Norbury began again.

"And then there's this scapegrace brother of his. He was perfectly frank with me, Mr. Gillingham. He told me of his brother, and I told him that I was quite certain it would make no difference to my daughter's feelings for him... After all, the brother was in Australia."

"When was this? Yesterday?" Antony felt that if Mark had any mentioned it after his brother's announcement of a personal call at the Red House, this perfect frankness had a good deal of wisdom behind it.

"It couldn't have been yesterday, Mr. Gillingham. Yesterday—" she shuddered, and shook her head.

"I thought perhaps he had been down here in the morning."

"Oh, no! There is such a thing, Mr. Gillingham, as being too devoted a lover. Not in the morning, no. We both agreed that dear Angela— Oh, no. No: the day before yesterday, when he happened to drop in about tea-time."

It occurred to Antony that Mrs. Norbury had come a long way from her opening statement that Mark and Miss Norbury were practically engaged. She was now admitting that dear Angela was not to be rushed, that dear Angela had, indeed, no heart for the match at all.

"The day before yesterday. As it happened, dear Angela was out. Not that it mattered. He was driving to Middleton. He hardly had time for a cup of tea, so that even if she had been in—"

Antony nodded absently. This was something new. Why did Mark go to Middleton the day before yesterday? But, after all, why shouldn't he? A hundred reasons unconnected with the death of Robert might have taken him there.

He got up to go. He wanted to be alone—alone, at least, with Bill. Mrs. Norbury had given him many things to think over, but the great outstanding fact which had emerged was this: that Cayley had reason to hate Mark. Mrs. Norbury had given him that reason. To hate? Well, to be jealous, anyhow. But that was enough.

"You see," he said to Bill, as they walked back, "we know that Cayley is performing himself and risking himself over this business, and that must be for one of two reasons. Either to save Mark or to endanger him. That is to say, he is either wholeheartedly for him or wholeheartedly against him. Well, now we know that he is against him, definitely against him."

They had come to the gate into the last field which divided them from the road.

"Jolly little place, isn't it?" said Bill.

"Very. But rather mysterious. Isn't there a drive, or a road or anything?"

"Oh, there's a cart-track, but motor-cars can't come any nearer than the road"—he turned round and pointed—"up there. So the week-end millionaire people don't take it. At least, they'd have to build a road and a garage and all the rest of it, if they did."

"I see," said Antony carelessly, and then turned round and continued their walk up to the road. But later on he remembered this casual conversation at the gate, and saw the importance of it.

CHAPTER XVI  
What was it which Cayley was going to hide in that pond that night? Antony thought that he knew now. It was Mark's body.

HAPPY CHILDREN  
MORE IMPORTANT  
THAN A TIDY HOMEAdopted Mother of Fourteen  
Youngsters Tells How to  
Rear Them

BY MARIAN HALE

The stage mother, so convincing in her role that the public will allow her to play no other, has a counterpart in Mrs. Regina Adler, adopted mother of 14 children.

Life has made a professional mother of her.

Though she has but one son of her own, she has reared more than a dozen others, all orphans. She took them into her home for temporary shelter, and then they just stayed because they couldn't bear to leave her.

Seventeen years ago when her son was nine a neighbor interested her in two orphan boys, and she

10 GOLDEN RULES FOR  
MOTHERS

By Mrs. Regina Adler

1. Be good and kind but firm.
2. Teach children love, loyalty and unselfishness.
3. Have children do things for others until it becomes a habit.
4. Let them settle their own scraps.
5. Give them plenty of sleep.
6. Be sympathetic with their troubles.
7. Let them know every day that you love them.
8. Give them space to play and teach them to be happy.
9. Let them bring their play-mates to their home.
10. Happy children are more important than a tidy home.

offered to care for them until a home could be found for them. One boy was five, the other six.

When a home presented itself, the children protested. Twice they were taken from her, and twice they ran away and returned.

"What could I do?" asks the kindly Mrs. Adler. "I had to let them stay. One stayed until he was 21. He was a real son to me all the time my own was away during the war."

"It was the same way with the rest. They came temporarily, then just stayed."

"To be sure, a large family doesn't mean a life of ease. I have never kept any help. But I taught the boys to take care of themselves and to play and work together. None has ever been very sick."

"Children seem to me to be the most important things in the world. They need care, love and sympathy just as much as food and shelter."

"Recently my son and my husband have tried to influence me not to take in any more children, and I've promised not to."

"I suggested to some of the older boys that they find other homes, and what do you suppose they did? Just took rooms next door, but live here just the same!"

"My house hasn't always been the hottest one on the block, and I haven't had much time for parties or fancy clothes, but I wouldn't trade my family for any life of ease."

"Needless to say Mrs. Adler's home is not in the most fashionable section of New York or it is done in the latest style. To tell the truth, it's a bit shabby with furniture that has seen wear and carpets that bear evidences of heavy traffic."

But fourteen children who have seen sheltered and mothered there are ready to testify to the world that it's a real home and that Mrs. Adler has made a success of her profession of motherhood.

## IF YOU ARE WELL BRED

You know nothing is more indicative of bad training than careless, ungrammatical English.

If you are not sure of your grammatical constructions and cannot express yourself clearly there is only one thing to do—study until you can.

The most cultivated manners will not proclaim you well bred if your speech betrays your manners.

SPANISH IMMIGRANTS  
ARE FLOCKING TO CUBA

Havana, Cuba—Increase in the population of Cuba from 3,000,000 to 10,000,000, mainly through Spanish immigrants, is one of the purposes of the new secretary of state, Carlos Manuel de Cespedes, former Cuban minister to Washington.

The secretary believes that Spanish immigrants, for numerous reasons, will make the most desirable additions to Cuba's population, and is holding conferences with his colleagues on the best methods to bring these elements to the island. The necessity of checking the flow of workers from Cuban fields to Spain, caused by unfavorable financial conditions, and the advisability of counteracting the flood of Chinese, Jamaicans and Haitians is being stressed by Dr. de Cespedes.

## Dogs Bite Carriers

Warning is served by Postmaster William H. Zuehlke on owners of vicious dogs to keep them chained. Two terrier carriers were bitten by dogs yesterday, and the services of physicians are needed in both cases. Carriers are authorized by law to kill any dogs that are harassing people on the road.

## FUR SPORT COATS

The fur sports coat is one of the sure fire successes of the coming fashion program.

It is developed in all furs and goes to all lengths.

This one was enthusiastically received at the annual style show of the Chicago furriers.

Gray caracul is the material.

The matching hat is an interesting feature.

Proves To Her  
Brother She Can  
Make Own Way

Boston, Mass.—Miss Dallas Duane was talking one day, out at her home in Carson City, Tex., about the career she intended to

carve out for herself after she got a little older—she's only 19 now—when her brother remarked scoldingly:

"Career! Pooh! You'd starve to death if you didn't have a private income."

"Just to show you," exclaimed his sister, "I'll get a job right now—the first respectable job I can find."

The Duane has friends in Boston, so to Boston the young woman came, in search of work. She could have found it with her friends too, but feared her brother would say she was holding it through pull, not on her merits. That's why she accepted employment in a Charlestown quick-lunch restaurant. The manager says she's the best waitress the place ever had. Miss Duane declares she'll keep the position until her brother apologizes.

SWEDEN DOES BIG  
EXPORT BUSINESS

By Associated Press

Stockholm—That Sweden has definitely survived the post-war crisis, and is one of the first nations in Europe to show a natural and consistent recovery, appears from the monthly report on the foreign trade of this country during June, which has just been issued.

The export of timber and sawn wood, a staple commodity, has grown so rapidly that the volume is now 97 per cent of the peace time figures. At the end of June the timber sales were close to 600,000 standards, which is considerably more than half of the normal yearly output. The export of matches is 95 per cent of the pre-war normal, and it is encouraging that the export of iron ore has even surpassed pre-war figures by 3 per cent. As regards wood pulp and paper, which America buys from Sweden in large quantities, the figures for the month exceed the 1913 figures for the corresponding month by 18 to 72 per cent.

In the line of manufactured industrial products the quantity of electrical machines and apparatus, ball bearings and telephones is nearly three times that of June, 1913. Cream separators and motors have risen to 59 per cent of the pre-war figure.

A similar indication of prosperity is seen in the increased imports of raw material needed for Swedish industries. American dealers in copper will be interested to know that Sweden's imports of that metal have reached 84 per cent of the pre-war figure.

**CHICKEN DINNER**  
and Supper at Immanuel Luth. Church, Black Creek, Sunday, August 27th. Prices 35c and 25c.

Adventures Of  
The Twins

Twins Help Moon-Man  
"Nancy and Nick," said Mr. Peerabout, the Man-in-the-Moon, "I wish you would find out how much mischief my enemy Comet-Legs is doing."

"Has he been wicked again?" asked Nancy.

"I'm not sure," nodded Mr. Peerabout. "Someone has been tampering with my handles I run the moon with. Someone has been in my engine house."

"Now I had it fixed so that earth-people would have a clear, bright, full moon last night. And here I got a letter today saying that the moon was so wishy-washy and pale (and only out half the time) that Mrs. Cottontail mistook burdock for lettuce in Farmer Smith's sausage garden and had to have a poultice."

"How can we find out?" asked Nick.

"Well, the best way, I think," said Mr. Peerabout, stroking his long beard, "is to go down to some good place on the earth, and mark down in a little book everything the moon does."

"We'll do the best we can," said Nancy.

"Have you got a book?" Mr. Peerabout had a nice little red one and handed it over.

"Now, you children go down on a moon-beam, or wish yourselves down to the earth with your Green Shoes, and I'll fix the handles so that there will be a moon like a half dollar. I mean a dollar cut in half."

"And I'm going to have it as clear as a drug-store window. If it is different, I want you to tell me at once. You can telephone. There's a telephone in Cob Coon's tree. He lives in Old Oak Apartments."

Away went the Twins.

(Copyright, 1922, NEA Service.)

## MONOGRAMS

Monograms are being used extensively, both on lingerie and on tailored frocks of linen and silk. On silk shirts they frequently appear on the pocket or on the sleeve.

## ONE-SIDED

The one-sided décolletage is featured on many of the new evening frocks. So is Chinese and Japanese embroidery.

## FORTUNE IN CANDY

LILLIAN SHAEFFER AND (BELOW) GLADYS MERGENS.

Two girls, two years and \$200 joint forces and made a fortune.

The two girls, Lillian Shaeffer and Gladys Mergens, were employed in a shop at St. Paul.

"Let's pool our resources and go into the candy business," said Lillian.

"Agreed," said Gladys.

That's where the \$200 came in. Six months afterward, their business had attained such proportions they enlarged their old shop and started a new one. In two years they had three of the finest candy shops in the northwest.

When they started they made all their products in a back kitchen. Now they have an elaborate work-shop where 15 girls make candy all day long.

They have made courtesy the keynote of their business.

## ENTER THE FLAPPER

Chapter 18 — Peggy Pays

By Zoe Beckley

For a moment Peggy was too breathless to speak or cry out. Intent as she had been on her own game, she was off guard the instant she found herself in Lee's arms.

But the touch of his lips sent such a revulsion through her she almost turned sick. Pushing with all her strength she tried to get free. But his hold was like a vise. She managed to turn her head and, gasping, free her lips.

"Let go! Oh, how did you dare—your nasty creature!"

Without relaxing, he looked at her, pondering her wrathful outburst. Slowly an ugly light filled his eyes. Flipping her slender arms, he looked at her slowly over, contemptuously, searching.

"Nasty creature, eh?" he repeated, altogether a different man from the urbane courtier of a moment before. "Say, little flapper, where do you get that line? One would think you clean as angel's wings."

Peggy's spirit writhed. Humiliation whipped and stifled her. But she was more frightened even than hurt.

"What do you mean! And how dare you say such a—"

"Oh, come now, cut out that dare stuff! Here you are, got up like a 12-sheet poster—come-hither glances—stepping high and fast—smoking like a little chimney—lapping the brow like a seasoned vet—hopping it with the best of them—necking for all you're worth—playing me for an easy thing—and then you try to pull that dare stuff!"

"Don't make me laugh, sweetest! I know your mind. You're a frisky little colt on the loose, and I've got a wicked line out for you."

"Don't you suppose we all know you dropped that pen-knife into the engine on purpose? We didn't know what your game was, but I thought I'd find out. . . . Did you turn me down when I invited you for a petting stroll?"

Peggy writhed her hands free and covered her burning face.

"Hot tears were welling up, that she struggled to suppress."

"—Oh, you beast! I didn't mean

LEARN A WORD  
EVERY DAY

Today's word is—MUNDANE.

It's pronounced—mun-dane, with accent on the first syllable.

It means—of or pertaining to the world; worldly.

It comes from—Latin, "mundus," the world.

It's used like this—"The star An-tares, 400,000,000 miles in diameter is the largest of heavenly bodies yet measured by mundane astronomers."

## PRINTED FABRICS

Printed fabrics and knitted silks were featured by prominent members of society at the smart street fair which was one of the recent attractions of Southampton, the summer resort.

Afternoon Teas Splendid  
Way To Pay Social Debts

BY BERTHA E. SHAPLEIGH

There is no easier or more delightful way of entertaining a few or many friends at a small expenditure of time and money than asking them to tea.

"Tea" used to mean—and still does in some places—the evening meal consisting of bread, canned or preserved fruit, cake, and tea—with possibly cold meat or a light salad.

Now that the evening meal means dinner to most city people, to ask a person to tea is to offer hospitality between the hours of four and six, giving as refreshment some beverage, usually tea, cakes or sandwiches or both.

A tea may be more formal and consist of hot tea, sandwiches, with cakes, candies. High Tea is really an afternoon reception between the hours of four and seven, calling for engraved cards—and substantial food.

## WHAT TO SERVE

One may serve at such an affair—hot bouillon in cups, buttered rolls, croquettes, salad with mayonnaise, ice cream, cakes, and coffee. The bouillon may be omitted, and a choice of salad or croquettes offered—and ice cream, cakes, candies and nuts with chocolate or coffee.

However, the simple afternoon tea is far more acceptable, not spoiling one's appetite for dinner. The housewife can, with the assistance of daughter or friend, serve easily 20 or thirty people. It is well to make two kinds of sandwiches, one with a filling not sweet and one sweet—not forgetting a few plain bread and butter ones.

Allow three small, thin sandwiches for each guest. Cookies, small frosted cakes, shortbreads, nut cakes and kisses may be served for the sweet.

## TEA NOVELTIES

When serving tea, pass both lemon and cream. Insert whole cloves on some slices of lemon—many persons like the combination. The Russians serve a preserved strawberry in each cup and the Hawaiian tea has three cubes of pineapple which have been cooked in a heavy syrup—served in each cup.

The pineapple gives a delicious flavor, and sweetens the tea. One of the best ways of serving tea to a large number of people is to make a very strong infusion, which may be served in a tea pot, kept hot, and diluted with freshly boiling water to suit individual tastes.

If the tea is put in a cheesecloth bag, no straining is necessary. Many

firms are putting up tea in individual bags, and the cost is very little more—and the convenience correspondingly great.

When serving chocolate or cocoa, have a bowl of whipped cream, sweetened and flavored, and put a spoonful on top of each cup. Two very soft marshmallows to each cup makes a good substitute for cream.

## MARRIAGE A LA MODE

The Finnish bride can always be sure of spending money at least for a short time after her marriage, for it is the custom for each man present at her wedding to give the bride a piece of silver.

This is presented after the wedding feast. Each guest throws his coin into a plate in front of the bride. Any bungler who breaks the plate pays the forfeit of another coin.

## SHAVED RABBIT

A novelty in furs is shaved rab-

bit which might be said to resemble white seal, if there were such a fur. It is used largely for short jackets or trimmings. Sometimes it is colored gray, beige or tan.

## COLORS

For street wear this fall, the colors that have most promise are navy, copper, beaver, cocoa—and black, of course.

## JACKETS

Jackets for very elaborate wear are of white caracul, made like an Englishman's coat, with open sides and turned back cuffs. These garments are lined with silver gray silk.

Surprise your guests  
with Smilax

THEY'VE never tasted this new cookie before. There's a distinctly pleasing flavor to Smilax—a rich chocolate taste, mellowed by a sweet centre of creme de la creme. The attractive design of these crisp cream-filled cookies adds an artistic atmosphere to afternoon tea or refreshments. Ask your grocer today for "A pound of Johnston's Smilax" and serve them for dinner tomorrow.

Recipe for  
Frozen Peaches

One can or 12 large peaches, 2 cups sugar, 1 pint water, whites of 2 eggs beaten to a stiff froth. Break the peaches rather fine, and stir all the ingredients together. Freeze the whole into a form.

Serve with Johnston's Smilax Cookies.

## U. S. HOSPITALS FOR DISABLED MEN EXIST ON PAPER

Government Doing Mighty Little to Take Care of Veterans, Doctor Says

BY HARRY B. HUNT  
(Special to Post-Crescent)

New York—"Hospitals on paper"—the only hospitals that the government has provided for the care of thousands of disabled veterans of the World War—were scored by Dr. Thomas W. Salmon.

Dr. Salmon is medical director of the National Committee for Mental Hygiene. He is thoroughly familiar with the government's hospitalization program for disabled veterans, for he was one of the government consulting experts in preparing the program.

"It is time to speak the truth, not merely to say pleasant words," said Dr. Salmon.

"We wait until men become hopelessly insane we defer treatment for the tuberculosis until their chance to recover is gone."

"The hospitals for which money was appropriated more than a year ago are still mostly paper hospitals. Meanwhile, every lunatic asylum in this country—and I have visited 160 out of the 156 public institutions for the care of the insane—has its quota of ex-service men, crowded for at the expense of the government, but under conditions and standards that cannot possibly result in cure."

"I came home from France on a ship filled with disabled men," Dr. Salmon continued. "In a talk on board ship one day I told them:

"Boys, you are going to find real hospitals at home and plenty of specialists who are going to give your cases the attention they deserve. Some of you are going to get better. Some of you are going to get well altogether, but those who do not get well altogether are going to be taken care of."

"Today I say that I lied."

"I have just come back from Washington and there I have seen some of the hospitals prepared to meet the needs of these men and others like them. They are the strangest hospitals you ever saw—they are constructed wholly of paper. Some of them are of blue paper with white marks, some are white paper with black columns of figures. Each one of them in a tin tube tucked away in a pigeon hole of its own."

### HOSPITALS IN TUBES

There are tubes for general hospitals and special tubes for mental hospitals with reception wards, quarters for nurses, operating rooms, diagnostic clinics and every facility that modern science can provide.

"But they are all made of paper. Unless the people of this country insist upon it in the language that penetrates the political mind these hospitals will remain on paper in spite of the fact that the money has been appropriated to put them where they belong—in stone and brick and mortar."

"What is the actual hospital situation for the disabled man today?"

"Three out of every 10 men in hospitals supported or conducted by the government suffer from insanity. Not from 'shell-shock' or 'nervousness' or malnutrition. From insanity."

"Five out of every 10 men in these hospitals have tuberculosis."

"Thus eight out of every 10 of the disabled service men suffer from two of the most serious diseases that can come to young manhood."

"These are the facts. It is a lie to say that the hospitals are being overcrowded because a great army of soldiers with bogus diseases is sweeping down upon them. It is just the reverse."

"Because of the dearth of hospital facilities, there are hundreds and thousands of ex-service men maintaining themselves in their homes, blind up their own wounds as they die in France, asking nothing of anybody. We ought to get those men out of their homes—where the tuberculosis man is losing his best hours and the man with the mental disorder is allowing the shadows to fall—and put them in hospitals NOW. Instead of waiting until we can no longer help them."

"In county almshouses, in state hospitals and state asylums, men who never gave an inch before the German guns are giving ground fast now."

"America must again get behind these men."

"We must have real hospitals—not just hospitals on paper. Real hospitalization, not political bouquets."

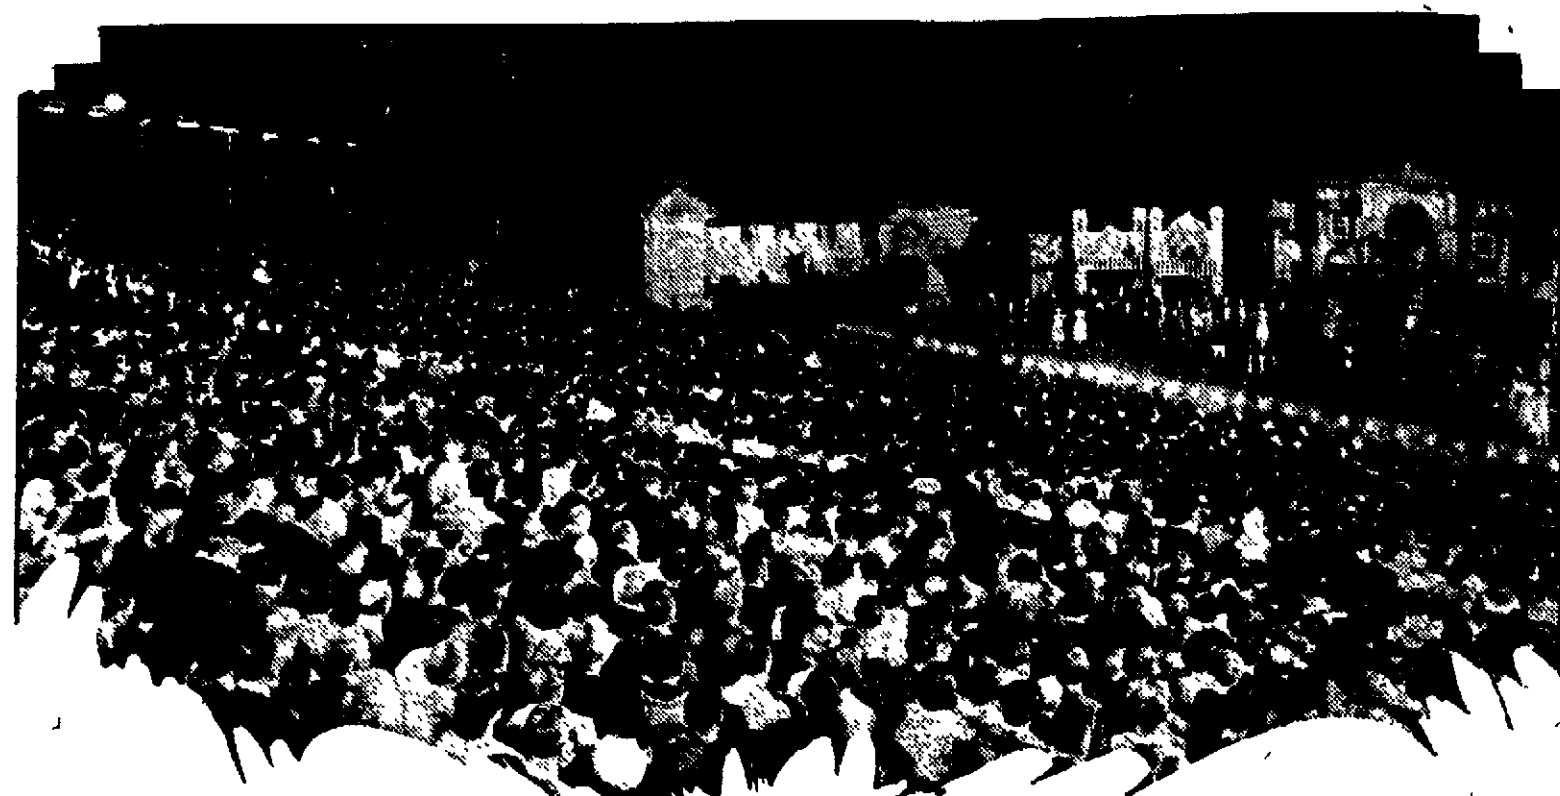

U. S. HEALTH OFFICER  
ASSIGNED TO PORTO RICO

By Associated Press  
San Juan, Porto Rico—As a result of the interest of the Porto Rico Chapter of the Red Cross and an appeal from Governor Reilly, the United States Public Health Service, Washington, has agreed to send Dr. F. C. Smith, of the tuberculosis section, to the island this month to make preliminary survey of the extent of the disease.

Work of the Red Cross during the past year revealed the fact that there is a great deal of tuberculosis not only in San Juan, but throughout the island, and in the annual report it was stated that:

"There are no clinics especially for diagnosis or treatment of this disease, and only about 1125 hospital beds available on the island. We have often found as many as 10 individuals living in a single room with an active case of tuberculosis."

## ST. LOUIS MAKES MONEY WITH GRAND OPERA

St. Louis—When most cities go into the opera business there is sure to be a follow-up of financial deficit and consequent citywide waiting.

St. Louis is not only regularly in the opera business but is running the entertainments at a big financial profit, and in addition is providing free entertainment for 1700 persons who otherwise could not afford to attend shows.

In the world's largest open-air theater this municipality has, for four years every night during two summer months entertained from 6,000 to 8,000 people with good music and clean fun. It has made light all the people. It has provided a free school to which St. Louis is indebted for a chorus of singers and dancers that the best of private impresarios can well envy.

"Does it pay? You bet!" says Mayor Henry W. Kiel of the Municipal Theater Association.

"Does it pay?" echoes Public Welfare Director Nelson Cunliff. "It should say it does! Just look at this picture and see for yourself."

But does it pay in dollars and cents? It does indeed. It wasn't for financial profit that it was founded, but it has done so well in that respect that the management has been puzzled once or twice to decide what to do with accumulated funds. "Material greatness isn't everything in the life of a city any more than in the life of an individual," remarked a group of leading St. Louis business men to one another four years ago. "There are entertainment and encouragement of the arts and mental improvement to be considered, too."

cipal Theater Association, established the present beautiful open-air auditorium in the cool setting of Forest Park and proceeded to produce a series of high-grade musical entertainments.

There was a deficit at first but the backers pocketed the loss cheerfully. The next season the venture did better financially. Last year there was a profit of \$24,000.

**HAVE FREE SEATS**  
"What shall we do with all this money?" asked the surprised management, for the association's charter requires the reinvestment of such funds in the enterprise itself. Part thereupon they found the Municipal School of Light Opera. "Let's spend it in training our own chorus, and develop finally a Free Municipal School of Light Opera."

someone suggested.

And this is what's being done now. During the present eight-week season, eight operas and operettas have been given at a cost of approximately \$20,000 each, and when the books are audited a profit of some \$40,000 will be shown.

Municipal opera audiences are as democratic as any crowds at a baseball game. For those who could not attend otherwise, there are 1700 free seats. Between the acts the music lovers eat crackerjack, drink soda pop and discuss the performances and the artists, and get acquainted. Certainly, nowhere else in America and probably nowhere else in the world, is good music available free, or at the most popular of prices, for such numbers of people, by an organization which actually has money left over for its own development after paying its own way.

## HARD TIMES ARE IN STORE FOR BRITISH RUBBER INDUSTRY

Report Made by Committee Appointed by Empire's Colonial Secretary

By Associated Press  
London—The rubber industry in British colonies and protectorates has hard times ahead of it. That is the opinion expressed by the committee appointed by the Colonial Secretary to investigate the situation.

The committee has just made its report. It says the total world stocks of crude rubber at the beginning of the year were estimated at \$12,000 tons. That was much more than the world required. Therefore it advises Winston Churchill, the Colonial Secretary, to "contemplate with grave concern the position of the industry in British colonies and protectorates unless steps are taken to reduce stocks and further to prevent overproduction of rubber to long as the potential normal production continues to be substantially in excess of consumption."

The committee adds it is of the opinion that consumption is not likely to overtake production for some years. "There is doubt," the Committee goes on to say, "that much can be done in the direction of stimulating new and extended uses of rubber."

But that may not help much for a committee takes care to add "This cannot in itself provide an immediate solution of the problem, since much time must necessarily elapse before any new and extended uses of rubber can become sufficiently operative to bring about materially increased consumption. Further it should be realized that improved methods of manufacturing rubber products, such as tires, undoubtedly prolong the life of

the article and consequently curtail the demand for raw rubber."

In the matter of the compulsory restriction of the production of raw rubber, the committee says the Dutch government, whose lands also produce much rubber, will have to be consulted.

## PROPOSE AERIAL ROUTE FROM LONDON TO INDIA

London—Trips to India by air in three days at a cost of \$300 first class and \$175 second-class, may soon be offered British travelers. A number of large technical corporations have made a proposal to the government to run a mail and passenger service from London to Bombay. The airships would have a capacity of 5,000,000 cubic feet, and would be capable of flying at 80 miles an hour with 200 passengers.

The proposal has been put forward in order to develop the communications of the British Empire in speed and cheapness, and thereby assist the development of trade. No promotion profits would be taken by any party, and all the promoters ask is a subsidy from the government sufficient to pay the public investor a dividend of four and one-half per cent.

## PROFESSIONAL CLASS IN RUSSIA IN SORE STRAITS

By Associated Press  
London—A committee under the chairmanship of professor Sir Paul Vinogradoff has been formed to help the professional classes in Russia whose condition has been described as most pitiable.

Since the Soviets adopted their new economic policy, thousands of professional men and women who have been in the employ of the government at a salary of half a pound of bread a day have lost even this pittance, and are now face to face with starvation.

## WOULD DEVELOP WATER POWER OF SCOTTISH FALLS

Bill in House of Commons Proposes to Generate Electricity for Industry

By Associated Press  
London—Scotland is waking up to the fact that its lakes and waterfalls may be made to serve other purposes than providing scenic attraction for tourists. As proof of this the "Grampian Electricity Bill" has been given a second reading in the house of commons.

The company is empowered to collect and use the waters of 15 lochs and 99 small lakes, rivers and streams, over an area of 417 square miles. The waters proposed to be utilized are estimated to be capable of generating 50,000 horse-power to supply electricity in the counties of Perth, Kinross and Forfar and districts in four other counties. The capital is placed at 4,500,000 pounds.

That any of the beautiful lakes and falls of "Caledonia, stern and wild" should be used to set the wheels of industry spinning, many in Scotland regard almost sacrilegious desecration. And that opinion is shared by not a few Americans who are accustomed to visit Scotland annually. But the promoters declare that the preservation of the natural beauties

of Scotland is expressly provided for by the terms of the bill. And they add that when the hum of the electrically-driven wheels of industry are heard in the land, and dividends begin to come in, the cry of "desecration" will be silenced.

## AUSTRALIA SOON MAY PRODUCE OWN WOOD PULP

Melbourne—Timber for the manufacture of paper, a long felt need in Australia, has finally been discovered in Tasmania.

Three important timbers from that territory have been converted into excellent wood pulp in the Perth laboratories, according to an announcement by G. H. Knibbs, Director of the Commonwealth Institute of Science and Industry.

## Says His Prescription Has Powerful Influence Over Rheumatism

Mr. James H. Allen, of Rochester, N. Y., suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery, which he called Allen's, to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. He has therefore instructed Voigt's Drug Store and druggists everywhere to dispense Allen's with the understanding that if the first pint bottle does not show the way to complete recovery he will gladly return your money without comment.

## ANCIENT CLOTHES OF 13TH CENTURY HAVE BEEN FOUND

Danish Scientist Makes Find of Men's Raiment in Search in Greenland

By Associated Press  
Copenhagen—Men's costumes of the 13th and 14th centuries have been found in Greenland. They are in an excellent state of preservation, and resemble the clothes worn by Dante in the published pictures of the Italian poet. They are not yet open to public view, but may be exhibited at some future date.

These interesting finds were made by Dr. Noerlund, a Danish scientist, while excavating in ancient burial grounds in the southwestern part of Greenland. They are the only existing specimens in the world of garments worn by men in the 13th and 14th centuries. Being deposited in the frozen earth for about 600 years has preserved them from destruction by moth and age. The garments are now in Copenhagen and deposited in the Danish collection in the Museum housed in the Prinsen's Palace.

# WORLD SOON WILL BE TOO SMALL TO HIDE A CRIMINAL

"League of Nations" Against  
Crooks Predicted for  
Near Future

BY CHIEF PHILIP SMITH  
Chief of Police, New Haven, Conn.,  
and President, the International  
Association of Police Chiefs  
(Special to Post-Crescent)

New Haven, Conn.—The earth soon  
will be too small to hold a crook  
wanted in any corner of it.

It is of vital importance in  
crook catching have just been taken.  
First, an international police head-  
quarters, a world police station, with  
an international chief and cooperating  
offices in every section of  
the globe, is not far off.

No crook too small for a crook,  
is the rhythmic slogan of this plan  
and with radio, wireless, cable and  
every new scientific device to aid  
therein soon be such thing as an  
international crook.

"The world is small," goes the say-  
ing, but police chiefs are preparing to  
make it still smaller for criminals.

They are going to have an interna-  
tional bureau of identification, with  
Washington and government offices  
as the American headquarters; a  
standardized system of punishments; a  
uniform code of offenses and punish-  
ments—the first real "league of na-  
tions" against law breakers.

The other important step is that  
police chiefs have won, after a long  
fight, a National Bureau of Criminal  
Identification in Washington, oper-  
ating under the Department of Justice  
and consolidating the data in the  
hands of the federal government with  
that held by individual police depart-  
ments.

This interchange of data, consid-  
ered an imperative step for many years  
but never achieved because of lack of  
finances, will bring about the most  
elaborate identification system ever  
known.

Police chiefs now have been agreed  
to, cooperate in a nation-wide anti-  
crime program. Here are the out-  
standing actions to be coordinately  
taken.

ONE. Rigid prosecution of drug  
peddlers. The drug evil has been  
given a place among the first crime  
causes. Peddlers and supply agents  
must be sent to jail for maximum  
terms and no probation considered.  
Drug users must have necessary  
treatment.

TWO. Handy "ball bond sharks"  
must go. They have stood in many  
cities as corruptors of officials and  
defectors of justice.

THREE. Any person carrying a  
gun in connection with a crime is  
a potential murderer. We must fight  
probation in all cases of persons ar-  
rested for auto theft, robbery and the  
like where guns are used.

FOUR. Auto police details must  
be equipped with armed cars and  
proper weapons for fighting the most  
desperate type of criminal—the pay-  
roll bandit; the auto bandit and the  
stick-up man.

American police chiefs plan to  
keep police headquarters equipped  
with the latest scientific devices, labo-  
ratories, experts and chemical testers.  
The crook is seldom behind in using  
the latest inventions, but police de-  
partments too often lag.

In the application of science the  
chiefs also will give more general  
use to medico-psychologists and their  
ability in getting data on the  
mental status of criminals.

# COAL DEMAND IS HEAVY ON ENGLAND

Increasing Orders From Amer-  
ica Conflict With Other  
Requests

London — A question of immediate  
practical interest raised in England  
by the American demand for British  
coal, is that of the capacity of the  
British mining industry to meet the  
demand with the least injury to the  
requirements of other customers.

The pressure continues to increase,  
and it is estimated that the American  
requirement will soon approximate  
100,000 tons a day. The tonnage al-  
ready taken up, however, does not  
justify that estimate, for the figures  
reported since the boom began repre-  
sents a tonnage capacity of be-  
tween 600,000 and 700,000 tons only.

A circumstance to be reckoned with  
is the advent of Canadian business.  
There are many indications of short-  
age in the supply of bituminous and  
anthracite coal from the United States  
on which Canada, under normal con-  
ditions, depends exclusively, and in  
the event of a continuance of the coal  
and railway difficulties in the United  
States, a strong demand for large  
supplies of English coal from Canada  
will doubtless soon have to be reck-  
oned with. Coincident with the in-  
quiries from America, there is a growing  
demand from Germany and the Scan-  
dinavian countries for Northumber-  
land, Durham, Yorkshire and Scottish  
coal.

These are markets in which South  
Wales competes only to an insignifi-  
cant extent, but the more the north-  
east coal fields export to the Continent  
of Europe, the less they will have for  
shipment to America and the more  
acute will become the demands from  
the United States for Welsh coal.  
This gives rise to the question as to  
what the Welsh coalfields can sell to  
America under existing conditions.

The margin for the coal exporting  
districts is about \$10,000 a week.  
No arbitrary limit can be placed to  
the quantity which it is possible for  
the collieries to produce in a seven-  
hour day, but the circumstances un-  
der which trade has been carried on  
during the last 12 months go to show  
that it is not possible to improve to  
any appreciable extent on that quan-  
tity.

# FAMOUS BANK OF ENGLAND TO HAVE BETTER QUARTERS

Herbert Baker, Noted Archi-  
tect, Will Supervise Con-  
struction Work

By Associated Press

London—The long projected re-  
building of the Bank of England will  
start almost immediately, the Daily  
Express understands. A meeting of  
the directors is to be held soon to  
make the necessary financial arrange-  
ments.

It is understood that the plans to  
be adopted are those of Herbert Baker,  
the architect who collaborated  
with Sir Edwin Lutyens for the new  
capitol at Delhi. Mr. Baker was al-  
so the designer of the South African  
government's administrative build-  
ings at Pretoria, and of the cathedrals  
at Capetown, Pretoria and Salisbury  
(Rhodesia), and the Cecil Rhodes  
memorial on Table Mountain.

The staff of the Bank of England is  
now double what it was shortly be-  
fore the war, largely owing to the  
vast growth of the National Debt,  
and the existing accommodations are  
utterly inadequate. Sections of the  
staff have been working for a long  
time at various places in the vicinity  
of the bank.

A special committee of the direc-  
tors, including Cecil Lubbock, has  
been considering alternative schemes  
for the rebuilding. The idea of raz-  
ing the whole of the existing one-  
story building to the ground was, it  
is understood, abandoned, partly be-  
cause of the difficulties of obtaining  
accommodation for the staff during  
the reconstruction. The present pro-  
posal is to retain the outer wall,

which abuts on Threadneedle-street,  
St. Bartholomew's Lane, Lombury  
and Princess-street. This wall, which  
entirely surrounded the site of be-  
tween three and four acres, was erected  
from the designs of Sir John  
Seames about 130 years ago, shortly  
after the Gordon Riots, when the  
bank clerks, sword and pistol in hand,  
defended the bank against a furious  
mob.

The wall is in the classic Grecian  
style, and in some places is 40 feet  
high. Security demanded that it  
have no windows and the architect  
achieved the difficult task of making  
the wall look ornamental by masking  
it with Corinthian columns and blank  
windows. The new building will rise  
within the wall to a height of 70 or 80  
feet above it, and will thus be nearly  
120 feet in height.

# NEW ZEALAND LIKES COMMUNITY SING

American Trained Singing  
Leader Starts New Fad  
in Far East

By Associated Press

Wellington, N. Z.—Cyril Mec, who  
trained community song leaders for  
the American troops during the war,  
has visited this city and introduced the  
idea of community singing. It  
caught on at once. A meeting of  
prominent Wellington business men  
was held at his instigation, the mayor  
presiding, and those present formed  
themselves into a committee to intro-  
duce the scheme.

"It met with immediate success,"  
said the New Zealand HERALD, "the  
attendance at the first singing number  
about 800 and at the last now fewer  
than 4,000."

The sings are held in the town hall  
from midday until 2 one day each  
week. There is an accompanist and  
a piano and a song leader who acts as  
conductor.

Leaflets are distributed with 12 or  
14 choruses or songs known to every-  
body. The leader announces which  
will be sung, gives them a start and  
off they go. There is nothing what-  
ever of a commercial proposition about  
it.

A collection is taken as the people  
pass out, and they contribute from a  
penny to 10 pence, according to the  
amount of enjoyment they get out of  
it.

The money is used for the hire of  
the hall, piano, advertising and print-  
ing. It is hoped soon to get a booklet  
printed containing 50 community  
songs. Hymns are not sung but just  
the good old-fashioned songs that  
everyone loves with a few tuneful pop-  
ular choruses to help keep people  
cheerful.

## Headaches

Are Usually Due to  
Constipation

When you are constipated,  
not enough of Nature's  
lubricating liquid is pro-  
duced in the bowel to keep  
the food waste soft and  
moving. Doctors prescribe  
Nujol because it acts like  
this natural lubricant and  
thus replaces it.

Nujol is a  
lubricant—not  
a medicine or  
laxative—so  
cannot gripe.

# Nujol

A LUBRICANT—NOT A LAXATIVE

Try it today.

ical extravaganza "Listen To Me"  
coming to Fischer's Appleton Thea-  
tre Thursday Night, August 31st.

# MAIL BOXES NO PLACE FOR POLITICAL CARDS

Placing of advertising matter in ru-  
ral mail boxes except through the  
regular channels of the mails is un-  
lawful, Postmaster William H. Zuehl-  
ke announced. Mail boxes have of  
late served as depositories for political  
advertisements, it is said. Political  
candidates are urged to prevent their  
agents from placing the literature in  
mail boxes and the mail carriers have  
been authorized to remove it.

# LAD OF 12 SAVES THREE CHILDREN FROM DROWNING

Very Modest Young Life Saver  
Lives at Halifax, Nova  
Scotia

By Associated Press

Halifax, N. S.—Harry McDonald, a  
12-year old lad living at Fairview, on  
the outskirts of Halifax has to his  
credit three rescues from drowning,  
all within the past three years.

His latest feat was the saving re-  
cently of five year old Teddy Moller  
when the small boy fell through a hole  
in a Fairview wharf. Young Mc-  
Donald had to dive over the wharf and  
swim a distance of 20 feet among the  
piles. The young Moller boy was going  
down for the third time and was  
unconscious when reached, but Mc-  
Donald clutched him and then holding  
to one of the piles directed the remain-  
der of the saving operations. These  
were carried out with the aid of a cod  
line passed down from the wharf.

Questioned about his first life sav-  
ing exploit Harry said:

"Aw, it wasn't nuthin' at all. The  
O'Brien kid what lives on Stanley  
street, fell off a roof down by the ship-  
yards and I went in and pulled him  
out."

The description of the second ex-  
ploit when he rescued Arthur Metham  
was:

"He was my chum, so I had to get  
him back."

It was not until after his first two  
rescues that the young life saver  
learned to swim. In the first instance  
he plunged after the "O'Brien kid"  
into the water over his head, and man-  
aged some how to get him back to the  
raft. In the second he went to his  
chum's rescue partially supported by  
a stick.

# Why Grow Old Before Your Time?

It isn't years alone that make one  
old. Many folks are younger at 70  
than others are at 50. A lame, bent  
back; stiff, aching joints; rheumatic  
pains, bad eyesight, and bladder irreg-  
ularities are often due to kidney  
weakness and not advancing years.  
Don't let weak kidneys age you. Use  
Doan's Kidney Pills. Doan's have  
made life more comfortable for thou-  
sands of elderly folks. Ask your  
neighbor!

Here's an Appleton Case  
Mrs. Mary Dowse, 519 State-st., says:  
"Backache bothered me and I had a  
steady, dull hurt across my kidneys,  
which annoyed me day and night. My  
kidneys acted too often and I had aw-  
ful headaches and spells of dizziness.  
I also was run down, but when I had  
an attack, I used Doan's Kidney Pills  
from Voigt's Drug store and they al-  
ways benefited me."

# BIG LINERS WILL COMPETE IN TEST OF SPEED ON SEA

Six Large Trans-Atlantic Ships  
To Hold Test Lasting All  
Summer

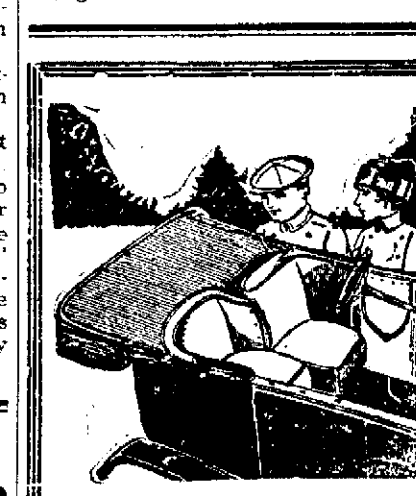

By Associated Press

London — "An ocean derby" will be  
held on the Atlantic this summer to  
determine the fastest of the great lin-  
ers on the Southampton-New York  
run. The position of the vessels in  
this contest for the Atlantic blue rib-  
band is as follows, the figures denoting  
the best speed for a whole voyage dur-  
ing the current season:

1. Mauretania ..... 25.29 knots
2. Majestic ..... 24.02 knots
3. Berengaria ..... 23.38 knots
4. Aquitania ..... 23.08
5. Olympic ..... 22.55
6. Homeric ..... 18.69

All these vessels, with the excep-  
tion of the Homeric, burn oil fuel.  
Thus, as well as settling the speed  
championship, the race will provide  
useful data for comparing the new  
method of making steam by oil with  
the old method of using coal.

The contest has progressed far  
enough to reveal that the race now

# MARRIAGES AND BIRTHS INCREASE IN ENGLAND

London—The marriage rate for Eng-  
land and Wales during the year 1920  
was 20.2 per 1000 of the population

lies between the Mauretania and the  
Majestic. Can the latter deprive the  
former of her proud and long-held po-  
sition as the "Atlantic Speed Queen."  
This is the great topic in ocean ship-  
ping circles. There is much argument  
and heavy betting.

The Majestic, like the Berengaria, is  
German built. She was designed to  
capture from Britain size and speed  
records. Her backers point out that  
she has shown her qualities in the  
latter respect by doing a recent sprin-  
g at 27.52 knots, and that as she is only  
beginning to "feel her engines," she  
will make things hum for her British-  
built competitors.

The Mauretania's backers reply that  
she, too, has not yet settled down  
since her conversion to oil-burning;  
that if spurring counts for anything  
she has a 28.2 knots spurt to her cre-  
dit, and that with a former whole voy-  
age achievement of over 26 knots she  
will, if needed, still show all-comers a  
clean pair of heels.

With all this keen but good-natured  
rivalry among the "greyhounds of the  
ocean," new records may be looked for  
before long. The new Berengaria may  
produce some surprises, now that she  
has taken to oil fuel, and she is looked  
upon as "the dark horse" of the At-  
lantic.

at all ages, the highest ever recorded.  
of the Registrar-General.  
The birth rate was 25.5 per 1,000,  
and the number of births, 957,782, was  
the largest number recorded in any  
year since civil registration was in-  
stituted.

Illegitimate as well as legitimate  
births showed a definite increase. The  
death rate of 12.9 per 1,000 was the  
lowest recorded. The infant mortality  
rate fell to 80 per 1,000—much  
lower than ever before.

# ALLEN'S FOOT-EASE DOES IT.

When shoes pinch or corns and  
bunions ache, get ALLEN'S FOOT-  
EASE, the antiseptic powder to be  
shaken into the shoes and sprinkled  
in the foot-bath. It takes the sting  
out of corns and bunions. Smarting,  
Aching, Swollen feet. 1,500,000 pounds  
of powder for the feet were used by  
our Army and Navy during the war.

## POCAN'S PITCHING AND HITTING BEATS BAYMEN

Kimberly Star Makes  
Good In First Effort  
With State Leaguers

Holds Enemy To Ten Hits and  
Contributes to Run Column  
With Home Run and Single  
—Sylvester is Injured.

Clarence Pocan, the highly touted Kimberly hurler, lived up to his reputation as a pitcher and acquired considerable fame as a slugger when he hurled the Appleton club of the state league to an 8 to 6 win over Green Bay at the Seymour fair Wednesday afternoon with more than 2,000 fans looking on. Pocan's hitting which included a home run and a single, also were important factors in the win.

The Kimberly youth was touched for ten hits but he was tight in the pinches. He was nervous at the start and presented the enemy with a brace of talies to start with but soon calmed down and after that his peculiar delivery kept the Baymen guessing. Two passes, a wild pitch a passed ball and a hit were responsible for the first two hostile runs. Errors were responsible for all except two of the Baymen's tallies.

**RYAN WORKS WELL.**  
Ryan, Pocan's batter, partner at Kimberly, worked with him against Green Bay and showed up well. He clouted a double in the second inning as his initial offering at the plate.

In the second inning Green Bay touched Pocan for three hits which they mixed with a pair of passes for three runs. A double by Knapp, a hit batemen and an error gave the enemy their last two counters.

Appleton got to Smithson for three hits in the first frame which resulted in a lone counter. In the second inning they added two more when Pocan rapped out a homer after Ryan had doubled. Three bingles a walk and a stolen base gave the Sylvesterites three more counters in the third inning by Pocan and Zelinski scored one in the fourth and they made their last run in the seventh off Williams when Leopold singled and Williams chased him around on a long twin sacker.

**GOOD FIELDING STUNTS.**  
Aside from Pocan's throw to home in the third, there were several other fielding features. Metten copped a line drive which resulted in a double killing in the sixth and in the ninth with two away, and a paron, he traveled the mountains back of shortstop and grabbed a Texas leaguer with his gloved mitt. One of Smithson's spitters got away from Jerry Kraus, the first and Zelenskie who was on third, attempted to score. The Bay backdrop did a nose dive and nipped the third sacker at the plate. It was a pretty play.

Harry Sylvester had a narrow escape from serious injury in the fifth while Chief Williams was at bat. On the second strike the Chief's bat slipped out his hands and crashed in to the Appleton players. Sylvester was on the ground for a moment with his hands but, at that, the stick cut a nasty gash in Sylvester's shin which forced him to retire from the argument.

The score by innings:

R H E  
Appleton 11 2 3 1 0 0 1 0 0—8 35 1  
Green Bay 2 2 0 2 0 0 0 0—6 10 1

Batteries: Appleton, Pocan and Ryan; Green Bay, Smithson, Williams and Kral. 2 base hits, Ryan Williams 2, Wilson, Knapp, Harley Sacrifice hits English, Leopold, Russell; Stolen bases, Harley, Knapp, Williams, Passed ball Ryan, Wild pitch, Pocan. First base on errors, Green Bay 1 Appleton 1. Earned runs, Appleton 7, Green Bay 2. Left on bases, Appleton 9, Green Bay 8. Double play, Metten to Wilson. Time of game, 1:50. Umpires Jansen and Koester.

KAUKAUNA DRILLS  
FOR FONDY GAME

**Kaukauna.**—The Kaukauna baseball team of the Fox River Valley league went through several hours' practice Thursday afternoon in an effort to whip itself into top top condition for the game Sunday at Fond du Lac.

Stress was laid upon the hitting qualities of the players. Mark Lamara and Davy who compose the battery for the Valleyites showed real team work and promise there is something in store for the Fondy players.

Kaukauna players as well as Kaukauna fans are awaiting with anticipation the game Wednesday, August 30, with the Milwaukee Brewers at the Kaukauna diamond. Tickets are already being sold for the exhibition.

MISS WALL KEEPS IN  
WOMAN'S GOLF RACE

**Green Lake, Wis.**—Miss Bernice Wall, state women's golf champion, remained in the running for the title on Wednesday when she defeated Mrs. Harry Landauer of Milwaukee in easy fashion, 6 up and 4. Miss Wall never was extended. Miss Virginia Gittens of Green Bay, favored as the probable opponent of Miss Wall in the final round, defeated Mrs. D. D. Larson of Oshkosh, 5 up and 4. Mrs. E. Stone, Racine, defeated Mrs. E. Stone of Madison, 5 up and 4, and Mrs. Huribut of Green Bay won from Mrs. Beattie Greene by default.

Miss Wall plays Mrs. Stone and Mrs. Stone meets Mrs. Huribut in the final round Thursday.

## Plays 2 Games Well

"PINKIE" PITTENGER OF BOSTON RED SOX

Toledo.—It is as a basketball star rather than as a ball player that Pinkie Pittenger the rising young infielder of the Boston Red Sox, is known in his home town here.

Pittenger never played important amateur baseball here and has not performed in front of the home folk since he broke into the professional game with the London, Ont., club two years ago.

But as a basketball forward Pittenger is an important figure not only in this district but throughout the middle west as well.

During the war he developed into the leading point getter for the University of Toledo five that numbered among its victims the famous aggregation from the Great Lakes Naval Training Station.

Pittenger never made much of a

spurge around here as a ball player. He played third base for a minor amateur club the Toledo Heights aggregation, for several years, and then got the notion he wanted to try the professional game.

He got a trial with the London club and made good at once. The Red Sox purchased him at the finish of the 1920 season. Last year at Boston he played more in the outfield than at his regular work and made an impression as a crackjack all around man.

This season he has toiled at both third base and shortstop. Manager Hugh Duffy of the Red Sox sees in the youth a future star.

Pittenger, who is 24 years old, spends his winters studying law at St. John's university and threatens to quit baseball when he passes the bar examination in another year.

Hortonville Bent On  
Taking County Crown

Kimberly Manager Scouting  
For Pitcher, Catcher and  
Centerfielders

Interest in the Outagamie County league is being centered on Sunday's game between Hortonville and Kimberly at Kimberly. This will be the game that will decide whether Kimberly retains first place.

Kimberly, the dopesters say, will have to fight hard to hold the lead, particularly so because it will be minus its stellar pitcher, Clarence Pocan and two other players who have been with the team all season.

Manager E. W. Behrend, of the Kimberly outfit is scouring the woods hereabouts for some one who can fill the shoes left by Pocan, catcher Ryan and Len Smith, centerfielder. The trio now is with the Appleton club of the Wisconsin State league.

Manager Behrend announced Thursday that he didn't have any one in view as yet but he expected to have all berths filled in time to greet the visitors.

Manager Collar announced that the regular lineup will work on the diamond Sunday. The battery will be Remmel and Hoier. In the game with Dale last week Remmel gave only seven hits.

**NEITHER M'NIDER OR  
HAAN AT CONVENTION**

**Beloit, Wis.**—Illness and the fact that the bonus fight is on in congress will deprive Wisconsin legionnaires of the privilege of entertaining Maj. Gen. W. G. Haan, former commander of the Thirty-second division, and National American Legion during their convention here on Thursday and Friday.

Gen. Haan's physician telegraphed the Beloit convention leaders on Wednesday that the general's physical condition does not permit him to travel.

Haan sent his regrets. About the same time, Commander MacNeider wired that he is on the job in Washington trying to get congress to pass the adjusted compensation bill and that he considers that of more importance to veterans than his appearance at the Beloit convention.

Col. Gilbert E. Seaman has been obtained as a speaker in place of Gen. Haan, and National Chairman Cowsley will speak in place of MacNeider.

Herman Kloes of Grand Chute, has finished painting and remodeling his farm home.

Read the Want Ads to find a house for rent.

BROOKLYN GIVES  
CHICAGO CUBS 6  
TO 0 WHITEWASH

Three Double Plays Pull Sherrod Smith of Robins Out of Predicament

Chicago—Brooklyn made it two straight from Chicago on Wednesday by driving Jones off the mound in the first inning and bunting hits off Cheever. The score was 6 to 0. Sherrod Smith pitched good ball in the pinches, and was backed up by three fast double plays.

Batteries Smith and O'Miller. Morris, Cheever and O'Farrell.

**HUBBELL DRIVEN FROM BOX**  
Pittsburgh—Pittsburgh drove Hubbell from the box in the third inning and then continued their heavy hitting on Singleton, winning Wednesday's game with Philadelphia 11 to 2. Cooper hit a home run in the seventh inning.

Batteries: Singleton, Hubbell and Henline, Cooper and Mattox and Schmidt.

**ST. LOUIS BEATS BOSTON**  
St. Louis—Bunched hits and effective pitching by Sherdel for eight innings gave St. Louis a 6 to 3 victory over Boston Wednesday afternoon.

Timely hitting by Bottomley also assisted the locals. He brought in two runs with a triple in the third and one with a single in the fourth. In the ninth ninth relieved Sherdel after he had walked two men with only one out filling the bases.

Batteries Marquard and Gibson, North, Sherdel and Almsmith.

ONE MORE CHANCE  
TO LEARN TO SWIM

Y. M. C. A. Arranges Another  
Class in Aquatics for  
Summer

With the summer season waning one last opportunity is to be given men in the Y M C A membership to learn to swim. Instructions are to be given in the pool each Monday.

Wednesday and Friday from 5 to 6 o'clock in the afternoon by A. P. Jensen, physical director.

"We are making an effort to interest every Y member who can not swim," said Mr. Jensen. "There will be little or no opportunity for exclusive swimming classes after the heavy gymnasium program starts so we want all nonswimmers to join the present class. There is ample time to master the sport before the class concludes."

Swimming lessons have been given all summer to men and boys and the classes have been discontinued one by one when the need for them no longer was felt. The period mentioned above has been maintained, however, and a number are attending regularly.

Applicants for swimming lessons may apply to Mr. Jensen or may present themselves at the pool at the class hour.

Regulars Answer Call  
Of McChesney To Play  
On Lawrence Grid Team

College Men Will Play Five Out  
Of Seven Games On Home  
Gridiron—October 14 Date  
Open.

**THE SCHEDULE**  
September 30—Stevens Point Normal at Appleton.  
October 7—Carroll College at Appleton.  
October 14—Open Date.  
October 21—Beloit at Beloit.  
October 28—Milwaukee School of Engineering at Appleton.  
November 4—Northwestern College at Appleton.  
November 11—Ripon at Ripon.  
November 18—Hamlin at Appleton.

This is what Lawrence college football machine will stack up against the coming fall, and with five out of seven games to be played on the local gridiron Appleton followers of the sport will certainly have their fill of gridiron sport.

Coach H. D. McChesney returned to the city Saturday after completing his scouting tour. He reports a bevy of new material as well as the return of nearly all of the regular members of the 1922 squad.

At least 21 of last year's players will don uniforms when the training season starts Sept. 12, opening day of the school, according to Coach McChesney.

**PLENTY MATERIAL**  
Coach McChesney will have plenty of material to make up at least two teams. "Bill" Smith and Stubenwall will be in line for the center position. For guards the coach will rely on Hunting, Gander, Kiesling and Swartzlow.

Leading the tackles is Captain Donald McGinnis. Then there is Al Blackbourn and Packard.

Stationed on the ends there will be Leering and Holmes. Coach McChesney announced that Wheeler, who played on the end position two years ago with Lawrence, has written that he will be back this fall. Wheeler spent last year in Denver.

More end material will be forthcoming from the former freshman team but the coach could not say just who stood foremost in that group.

**BACKS RETURNING**  
Ziebell, Downing and Deaforse will be the backfield material on which McChesney can rely for his quarterbacks. His fullbacks will be Grignon and Berry. Holmes, Basing and Roeder gave him a choice of halfbacks.

Efforts were made to book Oshkosh Normal school for Oct. 11 but Lawrence authorities were notified by President H. A. Prown that the normal school has already filled that date.

Coach McChesney held open the October date day for the teachers to answer boasting in Oshkosh following the teachers' victory last year by 3 to 0 score. He is willing to prove the superiority of his squad, which he says, lost the game a year ago because of the crippled condition of his

players following the engagement with Wisconsin.

**ANSWERS OSHKOSH**  
"Oshkosh has been doing a lot of crowing about the game and if they want to play with us again this year we are more than willing. However, I am not going to change the conference schedule to play this game," said the coach.

The Hamlin game is considered the biggest event of the Lawrence calendar. It will be the last game of the season. The Hamlin team beat Minnesota last year and is hailed as one of the strongest grid machines of the northwest.

Coach McChesney is busy himself this week in supervising and putting the grounds in shape. Several minor alterations are planned.

**JACK DEMPSEY TO BOX ON LABOR DAY**

Michigan City, Ind.—Jack Dempsey white heavyweight champion, will appear in Floyd Fitzsimmons' arena here on Labor day, but not in defense of his title. Gov. McCray of Indiana has granted permission to stage an exhibition contest for Dempsey, with sparring partners as his opponents. This exhibition will be supported by four bouts involving all star boxers.

Two other champions who will appear in the four bouts are Jimmy Clabby, who holds the middle light heavy and heavyweight title of Australia, and Billy Wells, the middle weight belt holder of Europe. The card will be:

Jack Dempsey vs sparring partners  
Jimmy Clabby vs Jimmy Darcy  
ten rounds at 160 pounds  
Billy Wells vs Dennis O'Keefe, ten rounds at 147 pounds  
Harold Smith vs Herbie Schafer  
eight rounds at 118 pounds

This will be Clabby's first start in America since his absence of seven years in Australia, where he has been in Hammond, Ind. His opponent swept the stand. Clabby's home, Darcy, is a Pacific coast contender for middleweight honors.

**FOOTBALL MANAGERS! WHAT GAMES HAVE YOU?**

Football managers, are you looking for games for the coming season?

E. F. Renicke, manager of the football team of the American legion west of Kaukauna, writes to the Post-Crescent that he would like to hear from other managers who wish to arrange games for the coming season. Those interested are requested to write to Mr. Renicke at Kaukauna.

**Progress on Building**  
Rapid progress is being made on the new building of the Wichman Furniture Co. Plasterers have completed

SISLER LEADS COBB  
BY THIRTEEN POINTS

Chicago — George Sisler continued his heavy hitting on Wednesday, cracking out three hits in four times at bat in the game between the Browns and Red Sox and increased his lead among the American league batters to 418. Ty Cobb, manager of the Tigers, the runner up to the St. Louis star, hit at a .500 clip on Wednesday, poling two hits in four times at bat in the Athletic-Tiger game and brought his mark to .408, thirteen points behind his rival. Their records follow:

Games AB Hits Pct  
Sisler ..... 114 470 194 .413  
Cobb ..... 108 423 169 .400

the third story and are now at work on the second. The company expects to occupy its new home by the middle of October. The contracts calls for the completion of the building by Oct. 1.

## NUMBER OF MEN UNEMPLOYED IN SWEDEN IS LESS

Government Commission for Unemployment Reports Less Than 83,000 Out of Work

By Associated Press  
Stockholm—Sweden seems to be approaching a successful solution of her unemployment problem. It has been one of the most difficult that the country has had to deal with of late years, and only recently has the government clearly seen light ahead in this troublesome situation.

According to the latest official report of the Government Unemployment Commission, the total number of unemployed in Sweden is now under 83,000 which is less than one-half of the figure recorded at the beginning of this year. About one hundred individual provincial communities have reported a complete cessation of unemployment, while the general demand for labor shows a decided increase. The government expenses for relief work during the first five months of this year amount to about 31,000 kronor, but owing to the rapid reduction in the number of men without work, considerable savings are expected.

GOVERNMENT AIDS  
The unemployment situation will be further relieved in the near future by the placing of government contracts

for 27,000,000 kronor with various industries. The state railroads are going to place large orders for rolling stock, signaling apparatus, structural steel work for bridges and other construction work. The Waterfalls Board will apply several millions of kronor toward continued electrification, the construction of power stations, and canal repair work, while the Department of Communications will order new telegraph cables and construct new lines.

Minister of Finance Thorson, in a recent speech, said that even when Swedish industries reach the 1914 level of activity there will be about 40,000 supernumerary workers for whom employment must be found, chiefly in agriculture. To meet this situation preliminary work is now being done for establishing agricultural colonies for the unemployed, and the back-to-the-soil project, the Minister said, will be one of the main questions for next year's Riksdag to settle.

## CHICAGO POLICEMAN IS HELD AS ROBBER

By Associated Press  
Chicago—Policeman Joseph F. Connors was under arrest with three other men, charged with robbery. The accusation that he had been a Dr. Jekyll by day and Mr. Hyde by night was vehemently denied by the patrolman who was stripped of his star and suspended pending outcome of the charges.

J. M. Felton and Miss Josephine Bolter were by the police to have identified Connors as one of the two men who held them up in Jackson Park and took Felton's automobile, \$40 and a diamond pin.
